Telephone (540) 473-8263
FAX (540) 473-8298**

The program of studies is designed to assist students and parents in understanding the courses available at the secondary schools in Botetourt County. The secondary schools offer a variety of courses to prepare students for the transition to post-secondary education and the workforce. Courses are also offered to explore individual interests.

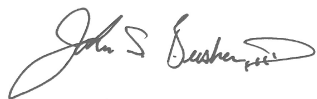

To the Students,

You are about to continue on a very important journey that will include making decisions about your future. Planning the courses you will take doesn't just happen – it takes thought and careful consideration of the multitude of career pathways. Take full advantage of the choices. These choices are broad and can be explored in-depth. Don't be afraid to try something new or challenging. You can take challenging and rigorous courses in each and every department. We offer courses required for graduation, dual enrollment opportunities and our career and technical education courses offer a variety of skills that connect the classroom to the ever-changing world of work. Students should use this guide to check graduation requirements, see which classes are required at each grade level, learn which electives are offered at each grade level and discover whether a desired class has any prerequisites. Students should not anticipate changing their course selections and schedules after registration. Your careful selection of courses will assist us in developing schedules, assigning teachers and determining when courses are offered in the most efficient manner. I encourage each of you to discuss your choices with your parents and ask your teachers for their advice.

To the Parents,

We encourage you to take an active role in your child's academic career planning. In the ever-changing world that students will be entering after high school, sound decision-making is crucial. Parents are a student's most influential teacher. Please encourage your child to explore areas of career interest, talents and abilities. Please take the time to discuss with your child ideas about education and its significance. Expect diligent study, role model good time management and set high expectations for them to achieve. Nurture your child's curiosity, creativity, confidence and self-esteem. Once again, we encourage you to be an active participant with school staff and support your son or daughter, the teaching staff and others. Our master schedule is developed after students complete their initial registration. To be as efficient as possible, your child should only sign up for those classes they truly intend to take. During the final master schedule process, students may experience conflicts with courses and adjustments must be made. Changes in course requests must be kept to a minimum and will only be approved due to a change in post-high school plans. We are proud of the quality of courses offered and the excellent instruction your student(s) will receive while attending Botetourt County Schools. Together, we will work with your child to provide the best possible education.

Sincerely,

John S. Busher III, Division Superintendent

Dr. Janet L. Womack, Assistant Superintendent for Instruction

*Note 2: Students applying to Roanoke Valley Governor's School **must attend an application session.***

Note 3: Jackson River Governor's School is only open to rising juniors and seniors. A representative from JRGS will be available at both high school registration meetings.

GRADUATION REQUIREMENTS

GENERAL INFORMATION

The requirements for a student to earn a diploma or certificate from Botetourt County Public Schools (BCPS) are outlined in this section. The requirements vary depending on diploma type.

When students below the ninth grade successfully complete courses offered for credit in grades nine through twelve, credit shall be counted toward meeting the standard units required for graduation provided the courses meet Standards of Learning (SOL) content requirements or are equivalent in content and academic rigor as those courses offered at the secondary level. Courses taken before the ninth grade year will **not** be used in calculating a student's grade point average.

A standard **unit of credit** for graduation is based on participation in instruction that is equal to or comparable to 140 clock hours and successful completion of the requirements of the course. A **verified unit of credit** is awarded based on participation in instruction that is equal to or comparable to 140 clock hours, successful completion of the requirements of the course, and a passing score on the SOL test for that course or Board of Education approved tests.

Block scheduling in Botetourt County high schools gives students the opportunity to complete eight courses in a regular high school academic year. The following tables outline the graduation requirements for Botetourt County students. Because of the increased course opportunities afforded to students through our scheduling model, the Virginia Board of Education approved the division's increase in local requirements for graduation.

The Virginia Department of Education (VDOE) is currently revising graduation requirements for incoming freshmen in 2018-19, Class of 2022. For more information please see the [VDOE website](#).

BCPS MINIMAL REQUIREMENTS FOR ADVANCED STUDIES DIPLOMA

Students desiring to earn an Advanced Studies Diploma must earn the standard units of credit and the verified units of credit outlined below as approved by the Board of Education in 2007.

- A student must successfully complete one virtual course, which may be non-credit bearing, to graduate with an Advanced Studies Diploma. (The BCPS Economics and Personal Finance course meets this requirement since it includes an online component.)
- Beginning with first-time ninth grade students in the 2016-2017 school year, requirements for the advanced diploma shall include a requirement to be trained in emergency first aid, cardiopulmonary resuscitation, and the use of automated external defibrillators, including hands-on practice of the skills necessary to perform cardiopulmonary resuscitation.

ADVANCED STUDIES DIPLOMA		
Discipline Area	Diploma Unit of Credits	
	Class of 2015 and Beyond	Verified Credits
English	4	2
Mathematics ¹	4	2
Laboratory Science ²	4	2
History and Social Science ³	4	2
Foreign Language ⁴	3	
Health & Physical Education	2	
Fine Arts or CTE	1	
Economics and Personal Finance	1	
Electives	5	
Student Selected Test ⁵		1
Total	28	9

NOTE 1: Courses completed to satisfy this requirement shall include at least three different course selections from among: Algebra I, Geometry, Algebra II, or other mathematics courses above the level of Algebra II. The Board shall approve courses to satisfy this requirement.

NOTE 2: Courses completed to satisfy this requirement shall include course selections from at least three different science disciplines from among: earth sciences, biology, chemistry, or physics or completion of the sequence of science courses required for the International Baccalaureate Diploma. The Board shall approve courses to satisfy this requirement.

NOTE 3: Courses completed to satisfy this requirement shall include U.S. and Virginia History, U.S. and Virginia Government, and two courses in either world history or geography or both. The Board shall approve courses to satisfy this requirement.

NOTE 4: Courses completed to satisfy this requirement shall include three years of one language or two years of two languages.

NOTE 5: A student may utilize additional tests for earning verified credit in computer science, technology, career or technical education, economics or other areas as prescribed by the Board in 8 VAC 20-131-110.

ELECTIVES:

Fine Arts and Career and Technical Education: The Standard, Advanced Studies, and Modified Standard Diplomas each contain a requirement for one standard unit of credit in Fine Arts or Career and Technical Education. The Standards of Accreditation do not require that courses used to satisfy the requirement of Fine Arts or Career and Technical Education be approved by the Board. Therefore, local school officials should use their own judgment in determining which courses students take to satisfy this requirement.

Foreign Language: The Advanced Studies Diploma contains a requirement for either three years of one foreign language or two years of two languages. In March 1998, the Board of Education approved the provision of three years of instruction in American Sign Language (ASL) for foreign language credit toward an Advanced Studies Diploma; other foreign languages will satisfy this requirement as well. Details of this action are available in: Superintendent's Memo, Interpretive, #1, June 12, 1998.

BCPS MINIMAL REQUIREMENTS FOR STANDARD DIPLOMA

Students desiring to earn a Standard Diploma must earn the standard units of credit and verified units of credits outlined below as approved by the Board of Education in 2007.

- Earn a board-approved career and technical education credential to graduate with a Standard Diploma; and
- Successfully complete one virtual course, which may be non-credit bearing. (The BCPS Economics and Personal Finance course meets this requirement since it includes an online component.)
- Beginning with first-time ninth grade students in the 2016-2017 school year, requirements for the standard diploma shall include a requirement to be trained in emergency first aid, cardiopulmonary resuscitation, and the use of automated external defibrillators, including hands-on practice of the skills necessary to perform cardiopulmonary resuscitation.

STANDARD DIPLOMA		
Discipline Area	Diploma Units of Credit	
	Standard Class of 2015 and Beyond	Verified Credits
English	4	2
Mathematics ¹	3	1
Laboratory Science ^{2&6}	3	1
History and Social Science ^{3&6}	3	1
Health and Physical Education	2	
Foreign Language, Fine Arts, or Career and Technical Education ⁷	2	
Economics and Personal Finance	1	
Electives ⁴	8	
Student Selected ⁵		1
Total	26	6

NOTE 1: Courses completed to satisfy this requirement shall include at least two different course selections from among: Algebra I; Geometry; Algebra, Functions and Data Analysis; Algebra II, or other mathematics courses above the level of Algebra II. The Board shall approve courses to satisfy this requirement.

NOTE 2: Courses completed to satisfy this requirement shall include course selections from at least two different science disciplines: earth sciences, biology, chemistry or physics or completion of the sequence of science courses required for the International Baccalaureate Diploma. The Board shall approve courses to satisfy this requirement.

NOTE 3: Courses completed to satisfy this requirement shall include U.S. and Virginia History, U.S. and Virginia Government, and one course in either world history or geography or both. The Board shall approve courses to satisfy this requirement.

NOTE 4: Courses to satisfy this requirement shall include at least two sequential electives as required by the Standards of Quality.

NOTE 5: A student may utilize additional tests for earning verified credit in computer science, technology, career and technical education, economics or other areas as prescribed by the Board in 8 VAC 20-131-110.

NOTE 6: Students who complete a career and technical education program sequence and pass an examination or occupational competency assessment in a career and technical education field that confers certification or an occupational competency credential from a recognized industry, or trade or professional association or acquires a professional license in a career and technical education field from the Commonwealth of Virginia may substitute the certification, competency credential or license for (1) the student selected verified credit and (2) either a science or history and social science verified credit when the certification, license or credential confers more than one verified credit. The examination or occupational competency assessment must be approved by the Board of Education as an additional test to verify student achievement.

NOTE 7: For students entering the ninth grade for the first time in 2011-2012 and beyond: Pursuant to Section 22.1-253.13:4, *Code of Virginia*, credits earned for this requirement shall include one credit in fine or performing arts or career and technical education.

Sequential Electives: Effective with the graduating class of 2003, students who wish to receive a Standard or Modified Standard Diploma must successfully complete two sequential electives. On February 5, 2002, the Board of Education approved [Guidelines for Sequential Electives for the Standard and Modified Standard Diploma](#) (PDF).

- Sequential electives may be in any discipline as long as the courses are not specifically required for graduation.
- Courses used to satisfy the one unit of credit in a fine arts or career and technical education course may be used to partially satisfy this requirement.
- For career and technical education electives, check with the Office of Career and Technical Education at (804) 225-2051.
- An exploratory course followed by an introductory course may not be used to satisfy the requirement.
- An introductory course followed by another level of the same course of study may be used.
- Sequential electives do not have to be taken in consecutive years.

Fine Arts and Career and Technical Education: The Standard, Advanced Studies, and Modified Standard Diplomas each contain a requirement for one standard unit of credit in Fine Arts or Career and Technical Education. The Standards of Accreditation do not require that courses used to satisfy the requirement of Fine Arts or Career and Technical Education be approved by the Board. Therefore, local school officials should use their own judgment in determining which courses students take to satisfy this requirement

VERIFIED CREDITS

The Standards of Learning (SOL) represent the minimum learning objectives for every Virginia student in grades K through 12 in the core academic subject areas. Students must earn both standard credits and verified credits in order to graduate. A verified credit is awarded when the student passes the course and the corresponding End-of-Course SOL test. The assessment requirements for verified credits may be met by using the standard SOL test or the corresponding VSEP (Virginia Substitute Evaluation Plan) as determined by the IEP team.

ADVANCED STUDIES DIPLOMA REQUIREMENTS FOR GRADUATION

- a) Students must earn at least **28** standard units of credit and **nine** verified credits.
- b) The nine verified credits required to receive an Advanced Studies Diploma are as follows:
 - 2 English credits
 - 2 math credits
 - 2 science credits
 - 2 history and social science credits
 - 1 student selected credit

STANDARD DIPLOMA REQUIREMENTS FOR GRADUATION

- a) Students must earn at least **26** standard units of credit and **six** verified credits.
- b) The six verified credits required to receive a Standard Diploma are as follows:
 - 2 English credits
 - 1 math credit
 - 1 science credit
 - 1 history and social science credit
 - 1 student selected credit

SOL COURSES FOR VERIFIED CREDIT

ENGLISH	HISTORY AND SOCIAL SCIENCE	MATH	SCIENCE
English 11 (reading)	World History I	Algebra I	Earth Science
English 11 (writing)	World History II	Geometry	Biology
	Virginia and U.S History	Algebra II	Chemistry

LOCALLY AWARDED VERIFIED CREDITS

The Botetourt County School Board shall award verified credits in science and history/social sciences to students in accordance with the following policy. Information on credit accommodations can be found on page 16. Locally awarded verified credits are not available for an advanced studies diploma.

To be eligible to earn locally awarded verified credits, a student must:

- a) pass the course and not pass the related SOL test;
- b) take the SOL test for a subject at least twice;
- c) score within a 375-399 scale score range on any administration of the SOL test; and
- d) demonstrate achievement in the academic content through an appeal process. (Policy IKFA)

CTE VERIFIED CREDITS

The Board also has approved a schedule of career and technical examinations for licensure or certification that may be substituted for SOL tests to earn student-selected verified units of credit. Tests for licensure or certification that require the demonstration of knowledge and skills beyond what is associated with a single course may result in the awarding of two units of verified credit.

DIPLOMA SEALS

Students may receive seals or awards for exceptional academic, vocational, citizenship, or other exemplary performance in accordance with criteria defined by the State Board of Education or Botetourt County School Board.

STATE BOARD SEALS

1. The Governor's Seal shall be awarded to students who complete the requirements for an Advanced Studies Diploma with an average grade of "B" or better and successfully complete college-level coursework that will earn the student at least nine transferable college credits in Advanced Placement (AP), International Baccalaureate (IB), Cambridge, or dual enrollment courses.
2. The Board of Education Seal shall be awarded to students who complete the requirements for a Standard Diploma or Advanced Studies Diploma with an average grade of "A."
3. The Board of Education's Career and Technical Education Seal will be awarded to students who earn a Standard or Advanced Studies Diploma and complete a prescribed sequence of courses in a career and technical education concentration or specialization that they choose and maintain a "B" or better average in those courses; or (i) pass an examination or an occupational competency assessment in a career and technical education concentration or specialization that confers certification or occupational competency credential from a recognized industry, trade or professional association, or (ii) acquire a professional license in that career and technical education field from the Commonwealth of Virginia.
4. The Board of Education's Seal of Advanced Mathematics and Technology will be awarded to students who earn either a Standard or Advanced Studies Diploma, and (i) satisfy all of the mathematics requirements for the Advanced Studies Diploma (four units of credit including Algebra II; two verified units of credit) with a "B" average or better; and (ii) either (a) pass an examination in a career and technical education field that confers certification from a recognized industry, or trade or professional association; (b) acquire a professional license in a career and technical education field from the Commonwealth of Virginia; or (c) pass an examination approved by the Board that confers college-level credit in a technology or computer science area.
5. The Board of Education's Seal for Excellence in Civics Education will be awarded to students who (i) satisfy the requirement to earn a Modified Standard Diploma, a Standard Diploma or an Advanced Studies Diploma, (ii) complete Virginia and United States History and Virginia and United States Government courses with a grade of "B" or higher; (iii) have good attendance and no disciplinary infractions as determined by local school board policies and, (iv) complete 50 hours of voluntary participation in community service or extracurricular activities, such as volunteering for a charitable or religious organization that provides services to the poor, sick or less fortunate; participating in Boy Scouts, Girl Scouts or similar youth organizations; participating in Junior Reserve Officer Training Corps (JROTC); participating in political campaigns, government internships, Boys State, Girls State or Model General Assembly; and participating in school-sponsored extracurricular activities that have a civics focus. Any student who enlists in the United States military prior to graduation will be deemed to have met this community service requirement.
6. The Seal of Biliiteracy will be awarded to a student who has attained proficiency in English and one or more other world languages by high school graduation. This seal serves to certify attainment of biliteracy for students, employers and institutions of higher education. It is a statement of accomplishment that helps to signal evidence of a student's readiness for career and college, and for engagement as a global citizen.

LOCAL SCHOOL BOARD SEALS

1. Honor Graduate (2021 and beyond)
2. Jackson River Governor's School
3. National Honor Society
4. Roanoke Valley Governor's School
5. Salutatorian (2019, 2020)
6. Valedictorian (2019, 2020)

EARLY COLLEGE SCHOLARS

The Early College Scholars program allows eligible high school students to earn at least 15 hours of transferable college credit while completing the requirements for an Advanced Studies Diploma. In Botetourt County, students may meet the requirements for the Early College Scholars program through AP and dual enrollment courses.

To qualify for the Early College Scholars program, a student must complete and sign an Early College Scholars program agreement with their high school counselor, have a "B" average or better, be pursuing an Advanced Studies Diploma, and complete college-level course work (i.e., Advanced Placement or dual enrollment) that will earn at least 15 transferable college credits.

Students who successfully complete the program will receive a certificate from the Virginia Department of Education at graduation. [Please see the Virginia Department of Education Early College Scholars website for more information.](#)

STUDENT GRADE CLASSIFICATION

Student grade classification is based on the completed number of standard credits and is for record purposes only and does not indicate academic standing. Student grade classification has no bearing on the original cohort graduation year.

Grade	Credits
10	6 credits
11	13 credits
12	20 credits

DAY/YEAR SCHEDULE

Schools operate on a 180 day school year. All students must maintain a full day schedule. Exceptions will be granted for students in programs deemed appropriate by an IEP committee or high school students enrolled in workbased learning programs granting credit. The Division Superintendent may in cases of financial need, health, or other extreme circumstance grant additional exceptions.

SCHEDULE CHANGE PROCEDURES

Students are encouraged to make schedule choices carefully. Dropping or changing a course selection may necessitate a complete schedule change. Changes in initial course selections cannot be made after July 1. No exceptions will be made unless approved by the building administration.

CHANGE FROM ONE COURSE TO ANOTHER WILL BE MADE ONLY UNDER THE FOLLOWING CIRCUMSTANCES:

- a) Failure of a course which is a prerequisite for a scheduled course or a graduation requirement
- b) Human or computer error
- c) Change in a program of studies
- d) Recommendation of administration
- e) No move between course levels will be made after the first five weeks of a course

DROPPING A COURSE:

TYPE OF COURSE	DROP/WITHDRAWAL DATE	HIGH SCHOOL GRADE/TRANSCRIPT	COLLEGE GRADE/TRANSCRIPT
HIGH SCHOOL COURSE	A student drops a course before the Friday of the first full week of school.	No grade will be recorded. The student will be enrolled in a new course.	N/A
	A student drops a course after the Friday of the first full week of school.	The student will remain in the course and the final grade earned will be recorded on the transcript.	N/A
BCPS DUAL ENROLLMENT COURSE	A student drops a course before the Friday of the first full week of school.	No grade will be recorded. The student will be enrolled in a new course.	No college grade recorded. Tuition costs will be refunded.
	A student drops a course after the Friday of the first full week of school and before the college dual enrollment calendar ADD/DROP date.	The student will remain in the course and the final grade earned will be recorded on the transcript.	No college grade recorded. Tuition costs will be refunded.
	A student drops a course after the Friday of the first full week of school AND before the college dual enrollment calendar WITHDRAWAL date.	The student will remain in the course and the final grade earned will be recorded on the transcript.	The community college will determine the grade on the college transcript. Tuition costs will not be refunded.
REGIONAL ACADEMY	A student drops a course before the VWCC on-campus academic calendar ADD/DROP date	No grade will be recorded.	No college grade recorded. Tuition costs will be refunded.
	A student drops a course before the VWCC on-campus academic calendar WITHDRAWAL date.	The student will receive a W/F on the high school transcript.	The community college will determine the grade on the college transcript. Tuition costs will not be refunded.
VIRTUAL VIRGINIA	A student drops a course before 21 calendar days of course.	No grade will be recorded. The student will be enrolled in a new course if applicable.	N/A
	A student drops a course after 21 calendar days of course.	The student will receive a W/F on the high school transcript and will be responsible for a \$75 withdrawal fee.	N/A

Middle School Note:

High school credit courses taken in the middle school will be counted toward the units needed for graduation from high school. High school credit courses taken in the middle school will not be used in the calculation for GPA. When a student takes a credit-bearing course in middle school, parents may request that the student's final grade be omitted from his/her high school transcript. Therefore, the course would not count as a high school credit; and the course would need to be retaken in order to receive a standard credit toward graduation. A written request to remove the final grade must be provided to the middle school principal by June 30 of the same academic year in which the course was taken. BCPS Policy: IKEB/JO-SR

ATHLETIC ACADEMIC ELIGIBILITY

VIRGINIA HIGH SCHOOL LEAGUE

Under Virginia High School League (VHSL) policy, in order to be academically eligible to represent a school in any VHSL interscholastic athletic contest, a student must have passed at least five credit subjects, or the equivalent, the previous semester and must be currently taking not fewer than five credit subjects or the equivalent for participation during the second semester.

Under BCPS' 4x4 block schedule, one block is the equivalent of two traditional credits. A student who takes/passes three blocks is taking/passing the equivalent of six credits. For students taking A/B courses, each course will count as one course.

A subject for which credit has previously been granted may not, if repeated, be used by any student to satisfy the requirements of the VHSL policy. Students must also meet any additional requirements as established by VHSL policy. Information regarding eligibility can be found at www.vhsl.org.

NCAA

Students who plan to participate as college freshmen in Division I or II athletic programs must register and be certified by the NCAA (National Collegiate Athletic Association) Eligibility Center. Students should apply online and pay fees.

Important NCAA Note: NCAA eligibility requirements may change annually; therefore, it is imperative that future college athletes read current NCAA materials. See your school counselor for more information. Please check the NCAA website for the most up to date information: NCAA (www.ncaa.org).

GRADING SCALE

The grading system for Botetourt County is both numerical and alphabetical, with alphabetical being used on report cards. This grading scale will be used for all courses including all off-campus program courses. (Implemented in 2014-15 school year.)

LETTER GRADE	NUMBER RANGE	QUALITY POINTS	WEIGHTED QUALITY POINTS
A	94-100	4.0	5.0
A-	90-93	3.7	4.7
B+	87-89	3.3	4.3
B	83-86	3.0	4.0
B-	80-82	2.7	3.7
C+	77-79	2.3	3.3
C	73-76	2.0	3.0
C-	70-72	1.7	2.7
D+	67-69	1.3	2.3
D	60-66	1.0	2.0
F	0-59	0.0	0.0

Students in middle school exploratory or reading and mathematics strategies courses will receive an O (90-100), S (70-89), or U (0-69). Students in Pass/Fail courses will receive a P for satisfactory completion of the course and an F if the course requirements are not met.

GRADE POINT AVERAGE

The following guidelines are used to determine a student's GPA:

1. As stated in BCPS School Board Policy *IKEB/JO-SR*, high school credit courses taken in the middle school will be counted toward the units needed for graduation from high school. High school credit courses taken in the middle school will not be used in the calculation for GPA. When a student takes a credit-bearing course in middle school, parents may request that the student's final grade be omitted from his/her high school transcript. Therefore, the course would not count as a high school credit; and the course would need to be retaken in order to receive a standard credit toward graduation. A written request to remove the final grade must be provided to the middle school principal by June 30 of the same academic year in which the course was taken. BCPS Policy: *IKEB/JO-SR*
2. Any courses that are graded as Pass or Fail, whether taken at the community college level or at the secondary level, will not be included in the GPA calculation. However, the unit will count toward fulfilling graduation requirements.
3. All credit bearing grades earned in grades 9-12 will be included in GPA calculations. Grade point averages for students will be updated at the end of first semester and at the end of the school year using final grades.
4. The grading scale table indicates the quality points assigned to non-weighted and weighted grades. These values will be used in the GPA calculation. Grades earned from off-campus programs will also be figured into the GPA calculation based on this scale.

SUMMER PROGRAMS FOR REPEAT COURSE WORK AND REMEDIATION

Summer programs **may** operate for retaking failed senior level courses needed for graduation. BCPS offers English 12 and Virginia and U.S. Government as summer courses. Remediation programs are also available at the middle and high school level. A summer school fee is charged for repeat courses; there is no fee for remedial courses that are taken for noncredit. Summer programs usually begin a week after the last day of the school year.

Students desiring to repeat failed courses in English, math, science, or social studies in programs outside of BCPS must obtain prior written approval from the building principal.

BOTETOURT COUNTY ADVANCED TRAINING PROGRAMS

Botetourt County Advanced Training Programs prepare students for competitiveness on the global stage by requiring them to think critically and work both independently and as a team member. Advanced training programs foster deeper student interest in career exploration and training of content through applied learning, problem solving, discovery, and student engagement. Students are offered an opportunity to learn through hands-on experiences and specialized training. Many programs offer dual enrollment opportunity and industry certifications or licensing.

Classes are held at the Botetourt Technical Education Center, Greenfield Education and Training Center, and Virginia Western Community College.

Students electing to take courses for dual enrollment credit must apply to the community college indicated in the course description and meet the required Virginia Placement Test (VPT) scores. Course descriptions for Botetourt County Advanced Training Programs begin on page 53.

Programs Offered Include:

- Applied Interdisciplinary Science
- Auto Body
- Auto Service
- Building Trades
- Computer Systems Technology
- Cosmetology
- Criminal Justice
- Engineering
- Health Science
- Information Systems Technology
- Mechatronics
- Nurse Aide
- Welding

OFF CAMPUS PROGRAMS

JACKSON RIVER GOVERNOR'S SCHOOL FOR SCIENCE, MATHEMATICS & TECHNOLOGY (JRGS)

High school juniors and seniors in seven school divisions are given the opportunity to participate in an innovative and challenging program of studies in mathematics, science, and technology. JRGS is located on the Dabney S. Lancaster Community College campus and gives students an opportunity to complete research projects, internships and field trips.

Students should have completed Algebra I & II, Geometry, and Biology with a grade of A or B. While not required, preference will be given to students who have completed Chemistry and Algebra II.

[Please see the Jackson River Governor's School website for more information.](#)

ROANOKE VALLEY GOVERNOR'S SCHOOL FOR SCIENCE & TECHNOLOGY (RVGS)

RVGS is a regional school, which offers area students advanced level courses in math, science, computer applications and technology. Students from Botetourt County attend on a half-day basis. Students are given the opportunity to take advanced and highly integrated courses in such subjects as biology, physics, chemistry, algebra and calculus.

Students in grades eight through eleven wishing to be considered for acceptance at RVGS must attend an RVGS meeting and complete the application process. **Completion of Algebra I and Geometry are prerequisites.** The program at RVGS is rigorous and prospective students should be highly motivated, creative and have a strong interest in academics.

[Please see the Roanoke Valley Governor's School website for more information.](#)

VIRGINIA WESTERN COMMUNITY COLLEGE REGIONAL ACADEMY (VWCC)

The Regional Academy is a program designed to grow the number of students entering the engineering, mechatronics, and health professions pipelines by reaching out to rising high school juniors and seniors with a strong aptitude for science and mathematics. The curriculum has been designed by experienced community college faculty and must be taken in their entirety. In order to attend, students must:

1. See their school counselor to apply for one of the programs below.
2. Apply to Virginia Western Community College.
3. Complete Virginia Placement Testing (VPT) criteria prior to acceptance in the cohort.

[Please see the Virginia Western Regional Academy website for more information.](#)

Applied Interdisciplinary Science

This program will empower students with the knowledge, principles and investigative skills to contribute to scientific discovery. Students will gain confidence and become independent thinkers as they employ the Scientific Method in the fields of general biology, biotechnology, and environmental science. Students will earn a Career Studies Certificate in Applied Interdisciplinary Science while learning to gather, manage and interpret scientific data through coursework and field research conducted in the Roanoke River.

Engineering

The Engineering program is designed for creative students who want to explore engineering as a potential major. The intent of this program is to provide students a sense of what the engineering profession encompasses while exposing them to engineering concepts to better prepare them for success in engineering at the undergraduate level. Students should demonstrate strong math skills for this program.

Health Science

This is a foundational program to better prepare students for entry into a health sciences program. Students should demonstrate strong science and math skills in their high school program. Students must have successfully completed high school biology and college biology for dual enrollment credit prior to enrollment.

Mechatronics

This program will be taught at Botetourt Technical Education Center. Please see the Mechatronics section on page 54 for more information on this program.

GUIDELINES FOR SELECTING COURSES

Students are able to select a level of instruction in most core academic high school courses that meets individual academic needs. Registering for a standard academic course or an advanced studies course should be based on a student's motivation, post-secondary and career goals, prior academic performance, standardized test scores, and recommendations from teachers, parents, and counselors. It is strongly recommended that prerequisites and course requirements be considered carefully when students are registering for courses.

High school students have the opportunity to earn college credits during high school. Advanced Placement (AP) and Dual Enrollment (DE) courses are designed for students who wish to accelerate their high school course of study to include courses that may be taken for college credit. These courses are faster paced classes that require in-depth analysis and synthesis of subject matter. Students attempting these courses should be prepared to accept rigorous course requirements and have strong study habits. These courses are available to all students; however, parents and students should be aware of the nature of these courses and that inadequate preparation may limit a student's success in the course.

COLLEGE LEVEL/DUAL ENROLLMENT

Students have the opportunity to enroll in courses for which they will receive high school and college credit. Students are dual enrolled in BCPS and Virginia Western Community College or Dabney S. Lancaster Community College. Dual enrolled courses are available to all students; however, parents and students should be aware of the rigorous nature of these courses and that inadequate preparation for a college level course could adversely affect their college transcript and ability to apply for financial aid. Please refer to page 11 regarding how dropping/withdrawing from a dual enrollment course may affect the high school and college transcript. Parents and students are encouraged to reach out to post-secondary institutions to inquire how specific courses and degrees may transfer.

The tuition rates are determined by the community college and will be announced to students as soon as the information is made available to the school division. Dual enrollment tuition for courses taken at BTEC, GETC, JRHS, or LBHS must be paid to the high school on or before the first Friday of the full week of school. (Note - Virginia Western Regional Academy tuition should be paid directly to the college.) Any student concerned about the expense of tuition should speak to the building principal about financial assistance.

Virginia House Bill 1184 (HB1184)

HB1184 provides a pathway for students to complete an Associate's Degree or a one-year Uniform Certificate of General Studies from a community college concurrent with a high school diploma. Please see the community college websites for more information on HB1184. See your school counselor for more information.

Prerequisites for Dual Enrollment Courses

Enrollment in dual enrollment courses is contingent upon applying to the correct community college and passing the Virginia Placement Test (VPT) required by the Virginia Community College System. Scores from SAT, PSAT, ACT and/or the Algebra I SOL may be used to qualify. **Students electing to take a course for dual enrollment credit MUST apply to the appropriate college and pass the required VPT test(s) by the Friday of the first full week of the course.** See your school counselor for more information.

INDEPENDENT STUDY

The Independent Study Program provides seniors and second semester juniors an opportunity to pursue a program of their own design in an area of special interest. Please see the independent study application for more information. Students must enroll in an Independent Study course by July 1 with their school counselor. Please use the following link to access the application: <http://www.bcps.k12.va.us/community>

VIRTUAL VIRGINIA (VVA)

Virginia Department of Education's (VDOE) Virtual Virginia program offers pre-advanced placement (AP), honors and AP classes as well as academic electives and world languages. Virtual Virginia is designed to meet the needs of students who otherwise would be unable to take these courses due to a lack of availability or scheduling conflicts within their school. Parents and students should be aware of the rigorous nature of these courses and that inadequate preparation for a Virtual Virginia course could adversely affect their high school transcript. Eligible students enroll in Virtual Virginia through their local schools by deadlines set forth by the Virginia Department of Education. **Enrollment in VVA course opens April 1 and closes August 1.** Please see your school counselor for a list of available courses or visit <http://www.virtualvirginia.org> for the most current list of offerings.

Note: If a student drops a Virtual Virginia course after the withdrawal deadline, any associated costs for the late withdrawal will be the responsibility of the student.

SPECIAL EDUCATION

Special education services and related services are provided to all eligible students with disabilities. Special education services are provided to students who meet eligibility criteria under the provisions of the Individuals with Disabilities Education Improvement Act (IDEIA) in the areas of autism, deaf-blindness, deafness, developmental delay, hearing impairment, intellectual disability, multiple disabilities, orthopedic impairment, other health impairment, emotional disability, specific learning disability, speech or language impairment, traumatic brain injury or visual impairment including blindness. Related services are available to assist eligible students who require such services in order to receive benefit from their special education. Related services include but are not limited to the following: counseling, interpreting services, orientation and mobility services, occupational therapy, physical therapy, speech therapy, and special transportation. Eligible students with disabilities may receive a free and appropriate public education until graduation with a Standard or Advanced Diploma or until age 22.

Individualized Education Program (IEP): An IEP is developed for students who are eligible for special education and related services, and it is designed to meet each student's unique needs. The IEP team works collaboratively to determine the nature, level and environment(s) for service delivery. All special education and related services are provided in the least restrictive environment(s) as determined by the IEP team.

Section 504: Students with a qualifying disability may be eligible to receive special education and / or related services under Section 504 if they are found to have a physical or mental impairment that substantially limits one or more major life activities. A Section 504 Plan is developed for eligible students with a qualifying disability.

Information about special education services is available from your child's principal, case manager or the supervisor of special education at 540-473-8263.

CREDIT ACCOMMODATIONS

Credit accommodations provide alternatives for students with disabilities in earning the standard and verified credits required to graduate with a Standard Diploma. While credit accommodations provide alternate pathways and flexibility, students receiving accommodations must earn the 26 standard credits and six verified credits required to graduate with a Standard Diploma. Credit accommodations for students with disabilities may include:

- a) Alternative courses to meet the standard credit requirements.
- b) Modifications to the requirements for locally awarded verified credits.
- c) Additional tests approved by the Board of Education for earning verified credits.

Eligibility Criteria: Credit accommodations for the Standard Diploma shall be determined by the student's Individualized Education Program (IEP) team or Section 504 committee, including the student where appropriate, at any point after the student's eighth-grade year. The school must secure the informed written consent of the parent/guardian and the student, as appropriate, to choose credit accommodations after review of the student's academic history and full disclosure of the student's options. For more information, please see the student's school counselor or case manager.

The student must meet the following criteria to be eligible to receive credit accommodations for the Standard Diploma:

- a) Student must have a current IEP or 504 plan with standards-based content goals.
- b) Student has a disability that precludes him or her from achieving and progressing commensurate with grade level expectations, but is learning on grade level content.
- c) Student needs significant instructional supports to access grade level Standards of Learning (SOL) content and to show progress.
- d) Based on multiple objective measures of past performance, student might not be expected to achieve the required standard and verified units of credit within the standard time frame.

OTHER DIPLOMA OPTIONS FOR STUDENTS WITH DISABILITIES

Applied Studies Diploma:

This diploma is available to students with disabilities who complete the requirements of their Individualized Education Program (IEP) and who do not meet the requirements for other diplomas.

Modified Standard Diploma:

The Modified Standard Diploma is no longer an option for students with disabilities who entered the ninth grade for the first time beginning in 2013-2014. The Modified Standard Diploma is intended for certain students at the secondary level who have a disability and are unlikely to meet the credit requirements for a Standard Diploma. Eligibility and participation in the program are determined by the student's IEP team and the student, when appropriate.

ACADEMIC AND CAREER PLANNING

ACADEMIC AND CAREER PLAN (ACP)

Career planning for all students is a component of the Botetourt County Schools Counseling Program in conjunction with the Career and Technical Education (CTE) Department. Career awareness activities begin in elementary school followed by career exploration during middle school and high school. Career education is important since many occupations require some post-secondary education and/or training for successful employment.

Helping students prepare for their career or academic life after high school is a critical element of the secondary program. Virginia Board of Education regulations require the development of a written personal Academic and Career Plan (ACP) for **each seventh-grade student**. The purpose of this plan is to help students set goals to be used as a guide toward postsecondary success. The ACP is student-driven and developed, reviewed, and revised in collaboration with parents/guardians, counselors, and CTE teachers. Each student's ACP is reviewed before entering the ninth and eleventh grades with revisions made as necessary at those times.

For more information about the courses that are aligned with certain career clusters, see the section Course and Career Cluster Alignment on the next page.

AS – Advanced Studies

AP – Advanced Placement

DE- Dual Enrollment

-Courses in **bold print** are required courses.

-Electives may include Fine Arts, CTE, BTEC, and/or foreign language courses. Electives may also include additional academic area courses above what is required for the advanced diploma.

MIDDLE SCHOOL COURSE DESCRIPTIONS

ENGLISH

ENGLISH 6 (1109)

Offered: CAMS, RMMS

Grade Level: 6

Credit: None Prerequisite(s): None

Course Description: English 6 covers all areas of the Virginia English Standards of Learning. A student will study strategies for planning, drafting, revising, and editing a variety of written work. In addition, the student will have the opportunity to develop skills and strategies for group communication, vocabulary development, and the comprehension of fiction, informational, and nonfiction text. **Students are required to take the Reading 6 Standards of Learning (SOL) Test.**

ENGLISH 6 ADVANCED STUDIES (1108)

Offered: CAMS, RMMS

Grade Level: 6

Credit: None

Prerequisite(s): Students must meet the benchmark score on the division's qualifying rubric. The elements of the rubric may include performance on the division 5th grade writing prompt, grade 5 language arts semester average, GRADE test performance score, language arts teacher recommendation and final grade from 4th grade language arts course.

Course Description: This course is for students who excel in the area of English (reading and writing). This is a challenging course that emphasizes written communication and critical reading of both fiction and non-fiction text. **Students are required to take the Reading 6 Standards of Learning (SOL) Test.**

ENGLISH 7 (1110)

Offered: CAMS, RMMS

Grade Level: 7

Credit: None Prerequisite(s): None

Course Description: English 7 covers all areas of the Virginia English Standards of Learning. Students will study how to refine their use of strategies for planning, drafting, revising, and editing a variety of written work. In addition, students will have the opportunity to increase their skills and use of strategies for group communication, vocabulary development, and the comprehension of fiction, informational, and nonfiction text. **Students are required to take the Reading 7 Standards of Learning (SOL) Test.**

ENGLISH 7 ADVANCED STUDIES (1111)

Offered: CAMS, RMMS

Grade Level: 7

Credit: None

Prerequisite(s): Students must have completed English 6 Advanced Studies with a "C" or better or must meet the benchmark score on the division's qualifying rubric. The elements of the rubric may include English 6 semester average, Grade 6 SOL Reading test score, and English 6 teacher recommendation.

Course Description: This course is for students who excel in the area of English (reading and writing). This is a challenging course that emphasizes written communication and critical reading of both fiction and non-fiction text. **Students are required to take the Reading 7 Standards of Learning (SOL) Test.**

ENGLISH 8 (1120)

Offered: CAMS, RMMS

Grade Level: 8

Credit: None Prerequisite(s): None

Course Description: English 8 focuses on developing interviewing techniques, word analysis and usage selections, evaluation of various literary forms and the writing process. **Students are required to take the Reading 8 and Writing 8 Standards of Learning (SOL) Tests.**

ENGLISH 8 ADVANCED STUDIES (1119)

Offered: CAMS, RMMS

Grade Level: 8

Credit: None

Prerequisite(s): Students must have completed English 7 Advanced Studies with a "C" or better or must meet the benchmark score on the division's qualifying rubric. The elements of the rubric may include English 7 semester average, Grade 7 SOL Reading test score, and English 7 teacher recommendation.

Course Description: This course is for students who excel in the area of English (reading and writing). This is a challenging course that emphasizes written communication and critical reading of both fiction and non-fiction text. **Students are required to take the Reading 8 and Writing 8 Standards of Learning (SOL) Tests.**

LITERACY STRATEGIES (9710 - GRADE 6, 9711 - GRADE 7, 9712- GRADE 8)

Offered: CAMS, RMMS

Grade Level: 6, 7, 8

Credit: None Prerequisite(s): None

Course Description: This course is designed to provide students with direct instruction in a variety of research based learning strategies specifically created for increasing reading comprehension, decoding skills, and performance in the area of writing including sentence structure, grammar, paragraph structure, and essays.

HISTORY/SOCIAL SCIENCES

U.S. HISTORY TO 1865 (2353)

Offered: CAMS, RMMS

Grade Level: 6

Credit: None Prerequisite(s): None

Course Description: Students will use skills of historical and geographical analysis to explore the early history of the United States. Students will study the ideas and events that strengthened the union, and learn fundamental concepts in civics, economics, and geography. Students will study primary and secondary sources that laid the foundation of American ideals and institutions, as well as the everyday life of people at different times in this country's history. **A local assessment will be required by the state as a result of the elimination of the Standards of Learning (SOL) assessment.**

U.S. HISTORY – 1865 TO PRESENT (2354)

Offered: CAMS, RMMS

Grade Level: 7

Credit: None Prerequisite(s): None

Course Description: Students will continue to use skills of historical and geographical analysis as they examine American history since 1865. Students will continue to study fundamental concepts in civics, economics, and geography within the context of United States history. Political, economic, and social challenges facing the nation reunited after civil war will be examined as students develop an understanding of how the American experience shaped the world's political and economic landscape. **A local assessment will be required by the state as a result of the elimination of the Standards of Learning (SOL) assessment.**

CIVICS/ECONOMICS 8 (2357)

Offered: CAMS, RMMS

Grade Level: 8

Credit: None Prerequisite(s): None

Course Description: Civics/Economics 8 is the study of the structure and function of the local, state, and federal governments through the U.S. and Virginia Constitutions. Students will also study the basic structure and function of the U.S. economy. **Students are required to take the Civics/Economics 8 Standards of Learning (SOL) Test.**

MATHEMATICS

MATHEMATICS 6 (3110)

Offered: CAMS, RMMS

Grade Level: 6

Credit: None Prerequisite(s): None

Course Description: Mathematics 6 emphasizes the study of whole numbers, decimals and fractions. Students will compare data sets, make measurement system conversions, make geometric constructions, classify three-dimensional figures, and solve linear equations with one variable. The development of problem-solving skills will be integrated. **Students are required to take the Mathematics 6 Standards of Learning (SOL) Test.**

MATHEMATICS 6 ADVANCED STUDIES (3113)

Offered: CAMS, RMMS

Grade Level: 6

Credit: None

Prerequisite(s): Students must meet the benchmark score on the division's qualifying rubric. The elements of the rubric may include final grades from Math 4 and Math 5, SOL test scores from Math 4 and Math 5, and math teacher recommendation.

Course Description: This course is for students who excel in their understanding of mathematics. This is a fast-paced and challenging course that combines the sixth and some elements of the seventh grade curriculum into one year of study. **Students are required to take the Mathematics 6 Standards of Learning (SOL) Test.**

MATHEMATICS 7 (3111)

Offered: CAMS, RMMS

Grade Level: 7

Credit: None Prerequisite(s): None

Course Description: Mathematics 7 emphasizes problem solving including consumer application and proportional reasoning problems. The student will use the properties of real numbers and theories of probability to solve linear equations and inequalities, and use data analysis make inferences and predictions. The student will apply transformations to geometric figures and find area, surface area, and volume of geometric figures. **Students are required to take the Mathematics 7 Standards of Learning (SOL) Test.**

MATHEMATICS 7 ADVANCED STUDIES (3114)

Offered: CAMS, RMMS

Grade Level: 7

Credit: None

Prerequisite(s): Students must meet the benchmark score on the division's qualifying rubric. The elements of the rubric may include final grade from Math 5 and Math 6, SOL test score from Math 5 and Math 6, and math teacher recommendation.

Course Description: This course is for students who excel in their understanding of mathematics. This is a fast-paced and challenging course that extends the study of the Math 7 SOLs. **Students are required to take the Mathematics 7 Standards of Learning (SOL) Test.**

MATHEMATICS 8 PRE-ALGEBRA (3112)

Offered: CAMS, RMMS

Grade Level: 8

Credit: None Prerequisite(s): None

Course Description: Mathematics 8 is a course designed to prepare students for Algebra I. Students will study number theory, equations, the real number system, probability and statistics, solving multi-step equations, graphing linear equations, and using matrices to organize and interpret data. **Students are required to take the Mathematics 8 Standards of Learning (SOL) Test.**

ALGEBRA I (3130)

Offered: CAMS, RMMS

Grade Level(s): 7, 8

Credit: 1 - High School

Prerequisite(s) Grade 7: Students must meet the benchmark score on the division's qualifying rubric and must have successfully completed Math 6 Advanced Studies. The elements of the rubric may include the final grade from Math 5 and Math 6 Advanced Studies, SOL mathematics test score from Grade 5 and 6, Orleans-Hanna test score, and math teacher recommendation.

Prerequisite(s) Grade 8: Students must meet the benchmark score on the division's qualifying rubric. The elements of the rubric may include the final math grade from grades 6 and 7, SOL mathematics test score from Grade 6 and 7, Orleans-Hanna test score, and math teacher recommendation.

Course Description: Algebra I includes the study of functions, equations, inequalities, polynomials, radicals, and other related algebraic topics. The course is designed for students who are proficient in pre-algebra skills and are ready for Algebra I as a year-long course.

Students are required to take the Algebra I Standards of Learning (SOL) Test.

GEOMETRY ADVANCED STUDIES (3149)

Offered: CAMS, RMMS

Grade Level: 8

Credit: 1-High School

Prerequisite(s): Final grade of "C" or better in Algebra I

Course Description: Geometry Advanced Studies covers the Geometry curriculum at a fast pace and includes selected trigonometry topics. It is a rigorous study of the theory and structure of geometric concepts and has an increased emphasis on formal proofs and creative applications of concepts. This course will have a STEM Research focus designed to provide students with real world problem solving skills and an opportunity to work cooperatively with other students, teachers and members of the community. This is a high school credit-bearing course. **Students are required to take the Geometry Standards of Learning (SOL) Test.**

MATH STRATEGIES (9706 - GRADE 6, 9707- GRADE 7, 9708- GRADE 8)

Offered: CAMS, RMMS

Grade Level: 6, 7, 8

Credit: None Prerequisite(s): None

Course Description: This course is designed to provide students with direct instruction in a variety of research-based strategies specifically created for mathematics. Focus will be on computation and problem solving.

SCIENCE

SCIENCE 6 (4105)

Offered: CAMS, RMMS

Grade Level: 6

Credit: None Prerequisite(s): None

Course Description: Science 6 focuses on Earth's systems, water in the environment, air and atmosphere, basic chemistry concepts, and the solar system. Students continue to develop process skills with an emphasis on experimental design and problem solving using the scientific method.

LIFE SCIENCE 7 (4115)

Offered: CAMS, RMMS

Grade Level: 7

Credit: None Prerequisite(s): None

Course Description: Life Science 7 is a practical study of the features and functions of living things. Current environmental issues are emphasized as the program strives to develop an awareness of living things, the processes that support life, and the relationships among organisms. Activities, labs, class discussions, and questions and answers reinforce scientific methods and principles.

PHYSICAL SCIENCE 8 (4125)

Offered: CAMS, RMMS

Grade Level: 8

Credit: None Prerequisite(s): None

Course Description: Physical Science 8 focuses on physics and chemistry. The physics topics include work, force, motion, simple machines, sound, light, electricity, and magnetism. The chemistry topics consist of the nature and structure of matter, atomic theory, and the periodic table. Students are expected to plan and conduct investigations using accepted scientific methods. **Students are required to take the Physical Science 8 Standards of Learning (SOL) Test.**

FINE ARTS

BAND 6 (9230)

Offered: CAMS, RMMS

Grade Level: 6

Credit: None Prerequisite(s): None

Course Description: No experience is necessary. However, to take this course students must have an instrument. Instruments may be rented or purchased through local music stores. Beginning band introduces all the "basics" of learning to read music and to play an instrument. Students should discuss with the band director their instrument choice prior to enrollment.

BAND 7 (9231)

Offered: CAMS, RMMS

Grade Level: 7

Credit: None Prerequisite(s): None

Course Description: Band 7 is offered to seventh-grade students who have prior instrumental music experience. Group participation culminates in performances for the public and student body. The band builds skills crucial to the continued development of the young musician.

BAND 8 (9232)

Offered: CAMS, RMMS

Grade Level: 8

Credit: None Prerequisite(s): None

Course Description: Band 8 is designed for students who have two years of prior instrumental music experience. The class includes theory, performances, basic scales, and interpretation. Membership in this class is recommended for membership in Botetourt County's high school bands.

JAZZ BAND 8 (9249)

Offered: RMMS

Grade Level: 8

Credit: None Prerequisite(s): None

Course Description: Jazz Band 8 is open to eighth grade band students who have had two prior years of instrumental music. The class includes jazz theory, scales, chords, improvisation, history and performances. The students also have the opportunity to play piano, bass guitar, guitar and drum set.

CHORUS 6 (9269)

Offered: CAMS, RMMS

Grade Level: 6

Credit: None Prerequisite(s): None

Course Description: Chorus 6 focuses on a variety of choral music. Students will learn basic theory, music history, and how to achieve a good vocal sound. Opportunities for performance are given each semester.

CHORUS 7 (9270)

Offered: CAMS, RMMS

Grade Level: 7

Credit: None Prerequisite(s): None

Course Description: Chorus 7 continues with a variety of music sung in unison, two-parts and three-parts. Students review choral techniques and expand their knowledge of music theory and history. Opportunities for performance are given each semester.

CHORUS 8 (9260)

Offered: CAMS, RMMS

Grade Level: 8

Credit: None Prerequisite(s): None

Course Description: Chorus 8 incorporates choral techniques, two- and three-part music, and performance of music from various style periods. Students work to achieve balance and blend in a group performance as well as develop sight-reading skills. Opportunities for performance are given each semester. Students are encouraged to participate in Junior High Districts and All County Chorus.

FOREIGN LANGUAGES**FRENCH I (5110)**

Offered: CAMS, RMMS

Grade Level: 8

Credit: 1 - High School**Prerequisite(s):** Final grade of "B" in English 7 and teacher recommendation.

Course Description: French I introduces students to the study of a modern foreign language. Students learn to understand basic spoken French, to speak basic French using acceptable pronunciation, to read basic French and to write basic French. Students also acquire a general knowledge of geography, history and culture of French-speaking people. This is a high school credit-bearing course.

SPANISH I (5510)

Offered: CAMS, RMMS

Grade Level: 8

Credit: 1 - High School

Prerequisite(s): Final grade of "B" in English 7 and teacher recommendation.

Course Description: Spanish I introduces students to the study of a modern foreign language. Students learn to understand basic spoken Spanish, to speak basic Spanish using acceptable pronunciation, and to read and write basic Spanish. Students also acquire a general knowledge of the geography, history, and culture of Hispanic people. This is a high school credit-bearing course.

HEALTH AND PHYSICAL EDUCATION

PHYSICAL EDUCATION/HEALTH 6 (7110)

Offered: CAMS, RMMS

Grade Level: 6

Credit: None Prerequisite(s): None

Course Description: Physical Education 6 places emphasis on introduction to skilled combination activities, along with lifetime and recreational activities. These are centered on fitness and game skills. Health topics include health triangle, To Good For Drugs, Body Systems and Family Life Education.

PHYSICAL EDUCATION/HEALTH 7 (7120)

Offered: CAMS, RMMS

Grade Level: 7

Credit: None Prerequisite(s): None

Course Description: Physical Education 7 consists of students participating in a variety of individual and team sports. Students will also participate in lifetime and recreational activities. Health topics include community health, nutrition, fitness, To Good For Drugs, and Family Life Education.

PHYSICAL EDUCATION/HEALTH 8 (7200)

Offered: CAMS, RMMS

Grade Level: 8

Credit: None Prerequisite(s): None

Course Description: In Physical Education 8 class, major emphasis is placed on the development and maintenance of fitness through participation in individual and team sports, along with lifetime and recreational activities. The health program emphasizes communicable and noncommunicable diseases, To Good For Drugs, Mental Health and Family Life Education.

MIDDLE SCHOOL EXPLORATORY

EXPLORATORY 6 (6900)

Offered: CAMS, RMMS

Grade Level: 6

Credit: None Prerequisite(s): None

Course Description: This course is designed to give students exposure to multiple areas. Through the school year, students rotate through various exploratory programs. Areas of exploration may include the following: Agriscience, Art, World Cultures, Technology Education, Computer Application/Keyboarding, Family and Consumer Science, and Music.

EXPLORATORY 7 (6910)

Offered: CAMS, RMMS

Grade Level: 7

Credit: None Prerequisite(s): None

Course Description: This course is designed to give students exposure to multiple areas. Through the school year, students rotate through various exploratory programs. Those programs may include the following: Agriscience, Art, World Cultures, Technology Education, Family and Consumer Science, Music, and Career Exploration. The content within each area of exploration will differ from the content covered in Grade 6.

EXPLORATORY 8 (6920)

Offered: CAMS, RMMS

Grade Level: 8

Credit: None Prerequisite(s): None

Course Description: This course is designed to give students exposure to multiple areas. Through the school year, students rotate through various exploratory programs. Those programs may include the following: Agriscience, Art, World Cultures, Technology Education, Business Education, Family and Consumer Science, and Music. The content within each area of exploration will differ from the content covered in Grade 6 and Grade 7.

MIDDLE SCHOOL GIFTED EDUCATION

At the middle school level, gifted learners have the opportunity to participate in an advanced level English or mathematics class where the curriculum is compacted with enrichment and extension opportunities woven into each unit of study.

Gifted resource teachers collaborate with classroom teachers to design and implement opportunities for differentiated instruction. These opportunities include pre-assessment activities, which lead to integrative, challenging units of study. Gifted resource teachers provide research-based units of study, resources to support these units, co-teaching, and collaboration to support the unique needs of all learners.

HIGH SCHOOL COURSE DESCRIPTIONS

Note: *W* indicates the course is a weighted course

ENGLISH

ENGLISH 9 APPLIED STUDIES (1132)

Offered: JR

Grade Level: 9

Credits: 2

Prerequisite(s): English 8 (Based on final English 8 grade, SOL scores, GRADE assessment, and teacher recommendations)

Course Description: In English 9 Applied Studies, students will study those skills set forth in Virginia's Standards of Learning for the ninth grade. This course is designed to provide students with direct instruction in a variety of research-based learning strategies specifically designed to increase reading comprehension, decoding skills, and performance in the area of writing including sentence structure, grammar, paragraph structure, and essays. The course will emphasize the reading, writing, and research skills necessary to make the transition to English 10.

ENGLISH 9 (1130)

Offered: JR, LB

Grade Level: 9

Credit: 1

Prerequisite(s): Completion of English 8

Course Description: In English 9, students will study those skills set forth in Virginia's Standards of Learning for the ninth grade. Students will develop the reading, writing, and research skills necessary to make the transition to post-secondary education and the work force. This course does not prepare students for advanced placement or dual enrollment English.

ENGLISH 9 ADVANCED STUDIES (1131)

Offered: JR, LB

Grade Level: 9

Credit: 1

Prerequisite(s): It is recommended that students have a final grade of "B" or better in English 8.

Course Description: English 9 Advanced Studies prepares students for advanced studies, advanced placement, or dual enrollment English courses during the student's junior and senior years. Successful completion of the course requires students to accept the demands of independent, challenging reading, writing, and research assignments based on higher level thinking skills.

ENGLISH 10 (1140)

Offered: JR, LB

Grade Level: 10

Credit: 1

Prerequisite(s): Completion of English 9

Course Description: The intent of English 10 is to help students develop the reading, writing, and research skills necessary to make the transition to post-secondary education and the work force. Students will study those skills set forth in Virginia's Standards of Learning for the tenth grade. To refine fundamental research skills, students will complete research papers or projects. This course does not prepare students for advanced placement or dual enrollment English.

ENGLISH 10 ADVANCED STUDIES (1141)

Offered: JR, LB

Grade Level: 10

Credit: 1

Prerequisite(s): It is recommended that students have a final grade of "B" or better in English 9.

Course Description: English 10 Advanced Studies prepares students for advanced studies, advanced placement, or dual enrollment English courses during a student's junior and senior years. Successful completion of the course requires students to accept the demands of independent, challenging reading and writing assignments based on higher level thinking skills. Students will write a formal research paper.

ENGLISH 11 (1150)

Offered: JR, LB

Grade Level: 11

Credit: 1

Prerequisite(s): Completion of English 10**Course Description:** Students will study those skills set forth in Virginia's Standards of Learning for the eleventh grade. The student will develop the skills to present and analyze persuasive oral presentations, write a variety of reports, and study American literature. This course does not prepare students for advanced placement or dual enrollment English. **Students are required to take the English 11 Reading and English 11 Writing Standards of Learning (SOL) tests.****ENGLISH 11 ADVANCED STUDIES (1151)**

Offered: JR, LB

Grade Level: 11

Credit: 1

Prerequisite(s): It is recommended that students have a final grade of "B" or better in English 10.**Course Description:** In English 11 Advanced Studies students will develop the reading, writing, and research skills necessary to make a successful transition to a post-secondary educational institution. English 11 Advanced Studies prepares students for an advanced studies, advanced placement, or dual enrollment English course in the student's senior year. **Students are required to take the English 11 Reading and English 11 Writing Standards of Learning (SOL) Tests.****ENGLISH 11 ADVANCED PLACEMENT (AP): ENGLISH LANGUAGE AND COMPOSITION (1196)**

Offered: JR, LB

Grade Level: 11

Credit: 1^W**Prerequisite(s):** It is recommended that students have a final grade of "B" or better in English 10.**Course Description:** English 11 Advanced Placement Language and Composition will require students to practice close reading techniques necessary to become skilled readers of prose, both fiction and nonfiction, written in a variety of periods, disciplines, and rhetorical contexts. To become skilled writers, students will compose for a variety of audiences and purposes. Students should possess a high level of writing and reading skills as well as an independent work ethic. **Students are expected to take the Advanced Placement examination. Students are required to take the English 11 Reading and English 11 Writing Standards of Learning (SOL) Tests.****ENGLISH 12 (1160)**

Offered: JR, LB

Grade Level: 12

Credit: 1

Prerequisite(s): Completion of English 11**Course Description:** Students in English 12 will develop skills in oral communication, reading, writing, and research as set forth by the Virginia Standards of Learning to prepare for success in the workplace, a technical school, or two-year college.**ENGLISH 12 ADVANCED STUDIES (1161)**

Offered: JR, LB

Grade Level: 12

Credit: 1

Prerequisite(s): It is recommended that students have a final grade of "B" or better in English 11.**Course Description:** Students in English 12 Advanced Studies will develop the reading, writing, and research skills necessary to make a successful transition to a post-secondary educational institution. Designed for the college-bound students, the course will emphasize those skills beyond the general level of the Virginia Standards of Learning. Students will study major periods and works of British literature.**ENGLISH 12: COLLEGE COMPOSITION I & II (1600, 1600D)***Must be taken with U.S. Government I & II (2950, 2950D)*

Offered: JR, LB (Course is dual enrolled through Dabney S. Lancaster or Virginia Western or Community College.)

Grade Level: 12

Credit: 1^W (6 college credits)**Prerequisite(s):** It is recommended that students have a final grade of "B" or better in English 11. **Students electing to take this course for dual enrollment credit must apply to the appropriate community college and meet the required Virginia Placement Test (VPT) scores.****Course Description:** Students will be directed in a process approach to writing and speaking which includes invention, audience, drafting, and editing; and they will read, write, and speak effectively about the literary genres of drama and poetry. Students should possess a high level of writing and reading skills as well as an independent work ethic. This course is a dual enrollment college level course. Tuition to a community college may be charged at the beginning of the year. Students may elect to take the Advanced Placement English exam as well.

ENGLISH 12 ADVANCED PLACEMENT (AP): ENGLISH LITERATURE & COMPOSITION (1195)

Offered: JR, LB

Grade Level: 12

Credit: 1^W

Prerequisite(s): It is recommended that students have a final grade of “B” or better in English 11.

Course Description: Students will study world literature and literary criticism in preparation for the Advanced Placement Examination in literature and composition. Students will practice composition as part of an intensive study of the process of literary analysis. Students are expected to display college-level proficiency in composition by the end of the course. Students should possess a high level of writing and reading skills as well as an independent work ethic. **Students are expected to take the Advanced Placement examination.**

PHOTOJOURNALISM I-VIII (1215-1223)

Offered: JR, LB

Grade Level(s): 9, 10, 11,12

Credit: 1

Prerequisite(s): A completed application, writing assignment and a personal interview with the teacher may be required. It is recommended that students have at least a “B” average in English.

Course Description: Students will study the principles of design and graphics, techniques of interviewing, reporting, feature writing, desktop publishing, photography, and financial management. The application of these studies will result in the publication of the school yearbook.

CREATIVE WRITING I-IV (1171-1174)

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1 Prerequisite(s): None

Course Description: Students will write creatively in different genres, such as poetry, fiction, and drama. They will also read and discuss each other’s writing. As a yearly project, students will produce a collection of personal writings.

READING AND WRITING STRATEGIES I-IV (1181-1184)

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1 (Elective)

Prerequisite(s): Student is working toward achieving a proficient score on the SOL Reading and/or Writing test.

Course Description: This course is designed to provide students with direct instruction in a variety of research based learning strategies specifically created for increasing reading comprehension, decoding skills, and performance in the area of writing including sentence structure, grammar, paragraph structure, and essays.

LITERATURE THROUGH FILM (1165)

Offered: JR, LB

Grade Level(s): 10, 11, 12

Credit: 1

Prerequisite(s): English 9

Course Description: This course is a study of the elements of literary analysis through film and how filmmaking has translated the art of storytelling into a visual form. Students will be asked to evaluate how film, as a modern form of storytelling, has influenced our society. The course will also involve comparative analysis of literature and screen based media.

DIGITAL JOURNALISM (1166)

Offered: JR, LB

Grade Level(s): 10, 11, 12

Credit: 1

Prerequisite(s): Students should have strong writing skills and the ability to meet deadlines.

Course Description: Digital Journalism explores modern media and technology through creating and maintaining an online school newspaper. Students work together to write, edit, and publish articles on a daily basis, developing their writing skills in a team-based setting. Students also research journalistic ethics and the responsibility of modern media.

WORLD HISTORY AND GEOGRAPHY I (2215)

Offered: JR, LB

Grade Level(s): 9, 10

Credit: 1 Prerequisite(s): None

Course Description: World History and Geography I focuses on the historical development of people, places, and patterns of life from ancient times until about 1500 A.D. Students will study the origins of much of our heritage using texts, maps, pictures, stories, diagrams, and charts. Chronological, inquiry/research and technological skills will be emphasized. **Students are required to take the World History and Geography I Standards of Learning (SOL) Test.**

WORLD HISTORY AND GEOGRAPHY I ADVANCED STUDIES (2214)

Offered: JR, LB

Grade Level: 9

Credit: 1

Prerequisite(s): It is recommended that students have a final grade of “B” or better in previous social science course.

Course Description: The intent of this course is to prepare students for advanced placement or dual enrollment social science courses. World History and Geography I Advanced Studies surveys the historical development of people, places and patterns of life from ancient times until about 1500 A.D. Students will study the origins of our heritage using texts, maps, pictures, stories, diagrams, charts, chronological skills, inquiry/research skills and technology skills. Students will be required to complete independent projects and the course will supplement the text with a variety of primary and secondary source readings. **Students are required to take the World History I Standards of Learning (SOL) Test.**

WORLD HISTORY AND GEOGRAPHY II ADVANCED STUDIES (2217)

Offered: JR, LB

Grade Level: 10, 11, 12

Credit: 1

Prerequisite(s): Completion of World History I

Course Description: The intent of this course is to prepare students for advanced placement or dual enrollment social science courses. World History and Geography II focuses on the historical development of people, places, and patterns of life from 1500 A.D. to the present with an emphasis on Western Europe. Geographic influences on history will continue to be explored, but increasing attention will be given to political boundaries that developed with the evolution of nation-states. The people and events of the nineteenth and twentieth centuries will be emphasized for their strong connections to contemporary issues. Students will engage in chronological thinking, historical comprehension, and historical analysis. **Students are required to take the World History II Standards of Learning (SOL) Test.**

VIRGINIA AND U.S. HISTORY (2360)

Offered: JR, LB

Grade Level: 11

Credit: 1 Prerequisite(s): None

Course Description: U.S. History covers the course of American history from the Colonial Era to the present. **Students are required to take the U.S. Virginia History Standards of Learning (SOL) Test.**

VIRGINIA AND U.S. HISTORY ADVANCED STUDIES (2361)

Offered: JR, LB

Grade Level: 11

Credit: 1

Prerequisite(s): It is recommended that students have a final grade of “B” or better in previous social science course.

Course Description: The intent of this course is to help students develop the reading, writing, and research skills necessary to make a successful transition to a post-secondary education institution. U.S. History Advanced Studies surveys U.S. history from the Colonial Era to the present. Students will be required to complete independent projects and the course will supplement the text with a variety of primary and secondary source readings. Students signing up for this course should be academically motivated to study history on an advanced level. **Students are required to take the Virginia and U.S. History Standards of Learning (SOL) Test.**

U.S. HISTORY ADVANCED PLACEMENT (AP) (2319)

Offered: JR, LB

Grade Level: 11

Credit: 1^W

Prerequisite(s): It is recommended that students have a final grade of “B” or better in previous social science and English 10 courses.

Course Description: This course covers surveys U.S. history from the Colonial Era to the present and is equivalent to the demands of an introductory college course. It is an in-depth class with a chronological and/or topical approach. Students signing up for this course should be academically motivated to study history on an advanced level, possess a high level of writing and reading skills as well as an independent work ethic. **Students are expected to take the AP Exam. Students are required to take the Virginia and U.S. History Standards of Learning (SOL) Test.**

VIRGINIA AND U.S. GOVERNMENT (2440)

Offered: JR, LB

Grade Level: 12

Credit: 1 Prerequisite(s): None

Course Description: U.S. Government is focused upon the structures and functions of American government at the national, state, and local levels. Students will be required to complete independent projects and the course will supplement the text with a variety of primary and secondary source readings.

VIRGINIA AND U.S. GOVERNMENT ADVANCED STUDIES (2441)

Offered: JR, LB

Grade Level: 12

Credit: 1

Prerequisite(s): It is recommended that students have a final grade of "B" or better in previous social science course.

Course Description: The intent of this course is to help students develop the reading, writing, and research skills necessary to make a successful transition to a post-secondary education institution. U.S. Government Advanced Studies is focused on the structures and functions of American government at the national, state, and local levels. This course is designed for the student who is motivated to study government on an advanced level. Students will be required to complete independent projects and the course will supplement the text with a variety of primary and secondary source readings.

U.S. GOVERNMENT & POLITICS ADVANCED PLACEMENT (AP) (2445)

Offered: JR, LB

Grade Level: 12

Credit: 1^W

Prerequisite(s): It is recommended that students have a final grade of "B" or better in English 11 and Virginia and U.S History courses.

Course Description: This course is a survey study equivalent to the demands of an introductory college course in political science. Emphasis is placed on the Constitution, the federal government policy process, and the operating relationships between the federal government and state/local governments. Students should possess a high level of writing and reading skills as well as an independent work ethic. **Students are expected to take the Advanced Placement examination.**

U.S. GOVERNMENT I & II (2950, 2950D)

Must be taken with English 12: College Composition I & II (1600, 1600D)

Offered: JR, LB (Course is dual enrolled through Dabney S. Lancaster or Virginia Western or Community College.)

Grade Level: 12

Credit: 1^W (6 college credits)

Prerequisite(s): It is recommended that students have a final grade of "B" or better in Virginia and U.S History. Students electing to take this course for dual enrollment credit must apply to the appropriate community college and meet the required Virginia Placement Test (VPT) scores.

Course Description: This course teaches structure, operation, and process of national, state, and local governments. It includes an in-depth study of the three branches of the government and of public policy. Students should possess a high level of writing and reading skills as well as an independent work ethic. This course is a dual enrollment college level course.

PSYCHOLOGY/SOCIOLOGY (2998)

Offered: JR, LB

Grade Level(s): 10, 11, 12

Credit: 1 Prerequisite(s): None

Course Description: This full credit course will include a study of both Psychology and Sociology. Psychology is the scientific study of human behavior and the complete mental process. Sociology is the study of the individuals, groups, and institutions that make up human society. In this course, students will study the major psychological theories that explain human thoughts, feelings, and actions, as well as study relationships among people, their interactions within groups, and the effect this participation has on behavior and character.

WORLD RELIGIONS AND RELIGIOUS CONFLICTS (2996)

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1 Prerequisite(s): None

Course Description: This course is a comparative religion class, which focuses on the major world religions and on the conflicts, which have arisen from religious beliefs through the ages. The course will delve into the basic tenets, history, and religious observances and rites of the various religions. It will then focus on the crucial conflicts which have occurred over the centuries, including, but not restricted to, the spread of Islam after AD 600, the Crusades, the Spanish Inquisition and French persecution of the Huguenots, the Hindu and Sikh conflicts, the Northern Ireland rebellions, the Arab and Israeli conflicts, and the current terrorist issues of fundamentalist Muslims.

AMERICAN CONFLICTS (2997)

Offered: JR, LB

Grade Level(s): 10, 11, 12

Credit: 1 Prerequisite(s): None

Course Description: This course will explore the social, economic, political, and military developments of the United States from the Revolutionary War Era to present.

INTERNATIONAL RELATIONS (2810)

Offered: JR, LB

Grade Level(s): 10, 11, 12

Credit: 1 Prerequisite(s): None

Course Description: This course will explore the major issues, questions and theories about international relations among the nations of the world. The course will focus on United States foreign policy looking at both historical and current events.

MATHEMATICS

ALGEBRA I PART I (3131)

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1 (elective)

Prerequisite(s): Completion of Math 8 Pre-Algebra

Course Description: Algebra I Part I is a gradual introduction to algebraic concepts and skills. The course includes basic concepts about numbers, language and symbols of math functions, variables, expressions, operations of real numbers, equations and inequalities. In order to earn an algebra credit, a student must complete Algebra I Part II.

ALGEBRA I PART II (3132)

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1

Prerequisite(s): Completion of Algebra I Part I

Course Description: Algebra I Part II covers graphing, solving systems of linear equations and inequalities, solving quadratic equations, rational expressions, and operations of polynomials. **Students are required to take the Algebra I Standards of Learning (SOL) Test.**

ALGEBRA I (3130)

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1

Prerequisite(s): Completion of Math 8 Pre-Algebra

Course Description: Algebra I covers expressions, single and multi-step equations, inequalities, and functions. Further study involves identifying and factoring polynomials and quadratic and radical equations. Statistics and probability are also explored. **Students are required to take the Algebra I Standards of Learning (SOL) Test.**

GEOMETRY PART I (3144)

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1 (elective)

Prerequisite(s): Completion of Algebra I or Algebra I Part II

Course Description: Geometry Part I is a gradual introduction to geometric concepts. The course will include concepts on points, lines, planes, angles, reasoning and proofs, triangles, and quadrilaterals. In order to receive a credit for geometry, a student must complete Geometry Part II.

GEOMETRY PART II (3145)

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1

Prerequisite(s): Completion of Geometry Part I

Course Description: Geometry Part II covers the concepts of proportions, trigonometry, circles, three-dimensional figures, coordinate geometry, vectors, and transformations. **Students are required to take the Geometry Standards of Learning (SOL) Test.**

GEOMETRY (3143)

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1

Prerequisite(s): Completion of Algebra I or Algebra I Part II**Course Description:** Geometry is the study of the theory and structure of geometric concepts. The course will include concepts on points, lines, planes, angles, reasoning and proofs, triangles, quadrilaterals, proportions, trigonometry, circles, three-dimensional figures, coordinate geometry, vectors, and transformations. **Students are required to take the Geometry Standards of Learning (SOL) Test.****GEOMETRY ADVANCED STUDIES (3149)**

Offered: JR, LB

Credit: 1

Grade Level(s): 9, 10

Prerequisite(s): It is recommended that students have a final grade of "B" or better in Algebra I.**Course Description:** Geometry Advanced Studies covers the Geometry curriculum at a fast pace and includes selected trigonometry topics. It is a rigorous study of the theory and structure of geometric concepts and has an increased emphasis on formal proofs and creative applications of concepts. **Students are required to take the Geometry Standards of Learning (SOL) Test.****ALGEBRA, FUNCTIONS, AND DATA ANALYSIS (3134)**

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1

Prerequisite(s): Completion of Algebra I**Course Description:** This course will emphasize building mathematical models from data generated by practical applications such as those arising from science, business, and math. This course should be taken prior to taking Algebra II.**COMPUTER MATHEMATICS (3184)**

Offered: JR, LB

Grade Level(s): 11, 12

Credit: 1

Prerequisite(s): Completion of Algebra I**Course Description:** Computer Math covers basic math skills applicable to daily life such as maintaining checking and savings accounts, loans, and other aspects of earning income while adhering to a budget. Topics will be centered on calculator programming and applications. Students will create spreadsheets, graphs, and that will show competency in calculator and computer skills as well as mathematical material covered. **This course counts as a math course for a standard diploma if you are a CTE completer.****ALGEBRA II (3135)**

Offered: JR, LB

Grade Level(s): 10, 11, 12

Credit: 1

Prerequisite(s): Completion of Algebra I and Geometry**Course Description:** Algebra II is an extension of Algebra I. Topics of study include equations and inequalities, polynomials, relations and functions, exponents, irrational and complex numbers and quadratics. **Students are required to take the Algebra II Standards of Learning (SOL) Test.****ALGEBRA II ADVANCED STUDIES (3137)**

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1

Prerequisite(s): It is recommended that students have a final grade of "B" or better in Algebra I and Geometry courses.**Course Description:** Algebra II Advanced Studies is a fast-paced course designed to cover the content from Algebra II and Trigonometry. It is a rigorous study of the theory and structure of algebraic concepts. Concept application is emphasized in the development of problem solving and critical thinking skills. **Students are required to take the Algebra II Standards of Learning (SOL) Test.****ADVANCED MATHEMATICS WITH TRIGONOMETRY (3160)**

Offered: JR, LB

Grade Level(s): 10, 11, 12

Credit: 1

Prerequisite(s): It is recommended that students have a final grade of "C" or better in Algebra II.**Course Description:** Advanced mathematics topics will include the study of functions and relations, with emphasis on rational, square root, polynomial, exponential, and logarithmic functions. This course will also emphasize sequences, series, binomial expansion, circular and angular functions and their applications, basic trig identities, and trig equations and graphs.

PRE-CALCULUS WITH TRIGONOMETRY (3230, 3230D)

Offered: JR This course is dual enrolled through Dabney S. Lancaster Community College.

Offered: LB This course is dual enrolled through Virginia Western Community College.

Grade Level(s): 10, 11, 12

Credit: 1^W (5 college credits)

Prerequisite(s): Completion of Algebra II or Algebra II Advanced Studies; **Students electing to take this course for dual enrollment credit must apply to the appropriate community college and meet the required Virginia Placement Test (VPT) scores.**

Course Description: This course presents college algebra, analytic geometry, trigonometry, and exponential and logarithmic functions.

CALCULUS I (3234, 3234D)

Offered: JR This course is dual enrolled through Dabney S. Lancaster Community College.

Offered: LB This course is dual enrolled through Virginia Western Community College.

Grade Level(s): 11, 12

Credit: 1^W (VWCC 4 college credits; DSLCC 5 college credits)

Prerequisite(s): Students must have a final grade of "C" or better in Pre-Calculus with Trigonometry.

Course Description: This course presents analytic geometry and the calculus of algebraic and transcendental functions including the study of limits, differentials, and introduction to integration along with their applications. Designed for mathematical, physical, and engineering science programs.

CALCULUS II (3235, 3235D)

Offered: JR This course is dual enrolled through Dabney S. Lancaster Community College.

Offered: LB This course is dual enrolled through Virginia Western Community College.

Grade Level(s): 11, 12

Credit: 1^W (VWCC 4 college credits; DSLCC 5 college credits)

Prerequisite(s): Students must have a final grade of "C" or better in Calculus I.

Course Description: This course continues the study of analytic geometry and the calculus of algebraic and transcendental functions including rectangular, polar, and parametric graphing, indefinite and definite integrals, methods of integration, and power series along with applications. Designed for mathematical, physical, and engineering science programs.

STATISTICAL REASONING (3233, 3233D)

Offered: JR This course is dual enrolled through Dabney S. Lancaster Community College.

Offered: LB This course is dual enrolled through Virginia Western Community College.

Grade Level(s): 11, 12

Credit: 1^W (3 college credits)

Prerequisite(s): Completion of Algebra II or Algebra II Advanced Studies; **Students electing to take this course for dual enrollment credit must apply to the appropriate community college and meet the required Virginia Placement Test (VPT) scores.**

Course Description: This course presents elementary statistical methods and concepts including descriptive statistics, estimation, hypothesis testing, linear regression, and categorical data analysis.

COLLEGE READINESS WITH SAT/ACT MATH PREP (3305)

Offered: JR

Grade Level: 11

Credit: 1 (Elective credit)

Prerequisites: Completion of Algebra I, Geometry, and Algebra II

Course Description: Designed to help students prepare for the SAT and/or the ACT, this course reviews the math skills, testing tips, and strategies to help students be successful on the math portion of these tests. Along with SAT and/or ACT prep, this course will incorporate other college readiness skills including, but not limited to; writing college essays and resumes, practice refining applications for colleges and scholarships, and building a portfolio.

SCIENCE**EARTH SCIENCE (4210)**

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1

Prerequisite(s): Completion of Physical Science 8

Course Description: Earth Science is an activity-centered study of the earth and space. This course includes the fields of geology, meteorology, astronomy, and oceanography and how they affect our changing earth. **Students are required to take the Earth Science Standards of Learning (SOL) Test.**

EARTH SCIENCE ADVANCED STUDIES (4211)

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1

Prerequisite(s): It is recommended that students have a final grade of "B" or better in Physical Science 8.

Course Description: The intent of this course is to prepare students for advanced studies, advanced placement, or dual enrollment science courses. This course is designed to provide in-depth study of geology, meteorology, astronomy, oceanography and related topics.

Students are required to take the Earth Science Standards of Learning (SOL) Test.

BIOLOGY I (4310)

Offered: JR, LB

Grade Level(s): 9,10, 11, 12

Credit: 1

Prerequisite(s): Completion of Earth Science or administrative approval

Course Description: Biology I is a foundation course providing an overview of biological concepts. The course includes the study of organisms and how they interact. Other topics include cells, genetics, human biology, and ecology. The course is lab-oriented and supplemented by lecture. **Students are required to take the Biology I Standards of Learning (SOL) Test.**

BIOLOGY I ADVANCED STUDIES (4311)

Offered: JR, LB

Grade Level(s): 10, 11, 12

Credit: 1

Prerequisite(s): It is recommended that students have a final grade of "B" or better in Earth Science.

Course Description: The intent of this course is to prepare students for advanced studies, advanced placement, or dual enrollment science courses. Biology I Advanced Studies provides the student with an in-depth study of a variety of biological concepts. **Students are required to take the Biology I Standards of Learning (SOL) Test.**

BIOLOGY II: HUMAN PHYSIOLOGY AND ANATOMY (4330)

Offered: JR, LB

Grade Level(s): 11, 12

Credit: 1

Prerequisite(s): It is recommended that students have completed biology and chemistry with a final grade of "B" or better in both.

Course Description: This course is offered for those who wish to enrich their knowledge of the human body and the functions of its systems. Through lecture and laboratory activities, students will establish a foundation which helps prepare them for careers in health fields and technical and medical research.

BIOLOGY II: ECOLOGY (4340)

Offered: JR, LB

Grade Level(s): 11, 12

Credit: 1

Prerequisite(s): Completion of Biology I

Course Description: This course is an extensive overview of the relationships humans share with their environment. It is meant not only for the future scientist, but also for the students who will make an impact on the environment through their votes and actions as citizens. Problem solving and lab skills will be an important part of this class.

COLLEGE GENERAL BIOLOGY I & II (4700, 4700D)

Offered: JR This course is dual enrolled through Dabney S. Lancaster Community College.

Offered: LB This course is dual enrolled through Virginia Western Community College.

Grade Level(s): 10, 11, 12

Credits: 2^W (8 college credits)

Prerequisite(s): **Students electing to take this course for dual enrollment credit must apply to the appropriate community college and meet the required Virginia Placement Test (VPT) scores.**

Course Description: The course includes lecture, discussion, research, and laboratory experiments with emphasis on modern advances in science and technology. Students must complete part I and II to count as a fourth science credit for an Advanced Studies diploma. After completing this dual enrollment course, students may elect to take the AP Biology exam.

BIOLOGY ADVANCED PLACEMENT (AP) (4370)

Offered: LB

Grade Level(s): 11, 12

Credits: 2^W

Prerequisite(s): It is recommended that students have a final grade of "B" or better in previous biology course.

Course Description: Advanced Placement Biology is designed to give the student an in-depth study of molecular, biochemical and environmental concepts while preparing students to take the advanced placement examination. Examination scores meeting or surpassing the state and/or college requirements may result in college credit. The course is lab-oriented with accompanying lecture and topical research. This course is for the college bound student who plans to pursue science on a post-secondary level. **Students are expected to take the Biology Advanced Placement examination.**

CHEMISTRY (4410)

Offered: JR, LB

Grade Level(s): 10, 11, 12

Credit: 1

Prerequisite(s): It is recommended that students have a final grade of "C" or better in Algebra I or Algebra I Part II.**Course Description:** Chemistry is the study of the composition, properties, and transformations of matter. It is lab-oriented and requires extensive use of Algebra in problem solving. **Students are required to take the Chemistry Standards of Learning (SOL) Test.****CHEMISTRY ADVANCED PLACEMENT (AP) (4470)**

Offered: LB

Grade Level(s): 11, 12

Credit: 2^W**Prerequisite(s):** It is recommended that students have a final grade of "B" or better in Chemistry and Algebra II courses.**Course Description:** Advanced Placement Chemistry allows students to study more chemical concepts in greater depth. The course involves extensive reading, problem solving, and lab work. The course is designed to serve on three levels: to prepare for the rigors of college chemistry, to qualify for advanced college freshman chemistry courses, and to prepare for the AP examination. **Students are expected to take the Chemistry Advanced Placement examination.****PHYSICS (4510)**

Offered: JR, LB

Grade Level(s): 10, 11, 12

Credit: 1

Prerequisite(s): It is recommended that students have a final grade of "B" or better in Algebra II.**Course Description:** This course presents an in-depth look at mechanics and heat, optics, waves, electricity, magnetism, and atomic theory. Physics is recommended for the college bound student. The course format includes labs, lectures, and class discussions and mathematical problem solving.**FINE ARTS****ART FOUNDATIONS (9120)**

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1 Prerequisite(s): None

Course Description: The student will develop art skills and a working knowledge of the elements of design that include an introduction into two and three-dimensional media. This level provides students with opportunities to develop an understanding and an appreciation for art history. The students will be required to keep a sketch journal throughout the semester.**2D ART I (9131)**

Offered: JR, LB

Grade Level(s): 10, 11, 12

Credit: 1

Prerequisite(s): Completion of Art Foundations**Course Description:** This course will introduce basic techniques in drawing and painting in a studio environment. The history of art is included to provide a link between the student, the student's art and the art of many cultures. Students will work equally in the areas of drawing and painting with a wide variety of materials.**2D ART II (9132)**

Offered: JR, LB

Grade Level(s): 10, 11, 12

Credit: 1

Prerequisite(s): Completion of 2D Art I**Course Description:** This course continues the study and creation of two-dimensional design at a more advanced level. Students will continue to develop their perception of edges, spaces, relationships, lights and shadows, and the whole. Critiques and evaluation of works of art and artists is included as part of the coursework.**3D ART I (9141)**

Offered: JR, LB

Grade Level(s): 10, 11, 12

Credit: 1

Prerequisite(s): Completion of Art Foundations**Course Description:** This is a studio-oriented course that focuses on the basic techniques of sculpture and ceramics. Students will explore a wide variety of materials and processes for creating 3-D Art. The study of ceramics, crafts and sculpture throughout history and cross-culturally will also be included. Students will be expected to maintain a weekly sketchbook/journal of ideas.

3D ART II (9142)

Offered: JR, LB

Grade Level(s): 10, 11, 12

Credit: 1

Prerequisite(s): Completion of 3D Art I

Course Description: This course is a continuation in the study and creation of three-dimensional design at an advanced level. This studio-oriented class focuses on refining sculptural techniques, craftsmanship, visual problem solving, and personal expression. Styles in ceramics, crafts and sculpture will continue to be explored and compared in their historical and cultural context. Students will be expected to maintain a weekly sketchbook/journal.

ADVANCED ART – PORTFOLIO PREPARATION I-II (9146-47)

Offered: JR, LB

Grade Level: 12

Credit: 1

Prerequisite(s): Completion of three art credits including at least one two art course

Course Description: Students enrolled in these courses will work under the guidance of the art teacher to develop a portfolio of artwork. These courses are intended for students who are interested in building a portfolio to meet application requirements of post-secondary art programs.

CONCERT BAND I-VIII (9233-9239, 9256-9259)

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1

Prerequisite(s): 2 years band experience or successful audition

Course Description: Concert Band Levels I and II are designed for the student with two or more year's instrumental experience. The course will expand on the students' instrumental knowledge with emphasis on performance ability. Class instruction includes theory, scales, interpretation and performance.

Concert Band Levels III-VIII will broaden the students' instrumental knowledge with emphasis on advanced performance ability. Class instruction includes advanced theory, major and minor scales, interpretation, and performance. The band will work extensively on music on the VBODA Grade 4, 5, and 6 levels.

All band students are required to attend all after-school performances, rehearsals, and band events scheduled during the school year for the ensembles in which they perform.

JAZZ BAND I-IV (9250-9263)

Offered: LB

Grade Level(s): 9, 10, 11, 12

Credit: 1

Prerequisite(s): 3 years band experience, instrumentation, and a successful audition

Course Description: The jazz band meets before the regular school day during zero block, The class will emphasize jazz performance. Class instruction includes jazz theory, major/minor scales, modes, stylistic study, and performance. The band class is a regular performing band. All class members are required to attend all after-school performances, rehearsals, and band events scheduled during the school year for the ensembles in which they perform. Instrumentation limitations: saxophones, trumpets, trombones, drum set, auxiliary percussion, piano, guitar, and bass guitar.

PERCUSSION ENSEMBLE I-IV (9251-59254)

Offered: LB

Grade Level(s): 9, 10, 11, 12

Credit: 1

Prerequisite(s): 3 years band experience, percussionist, and membership in one of other performing ensembles

Course Description: The percussion ensemble will focus on the skills directly involved with percussion performance. Class instruction will include mallet technique, auxiliary technique, as well as snare and bass drum techniques. Students will perform both battery style selections and concert ensemble selections.

CHOIR I-VIII (9285-9294)

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1

Prerequisite(s): None

Course Description: Previous choir experience is recommended, but not required for this course. The students will study a wide variety of vocal music containing 2-4 parts and will perform several times during the term. Students will learn basic music theory as well as obtain and/or expand their music reading ability. All students in the class are required to participate in all after-school performances, rehearsals and choir events scheduled during the school year for the ensembles in which they perform.

CONCERT CHOIR I-VIII (9271-9278)

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1

Prerequisite(s): Previous choir experience or a successful audition**Course Description:** Concert Choir is designed for students who have extensive previous choir experience. The students will study a wide variety of vocal music containing 3-8 parts and will perform several times during the term. Students will learn intermediate music theory and continue to expand their music reading ability. All students in the class are required to participate in all after-school performances, rehearsals and choir events scheduled during the school year for the ensembles in which they perform.**VOCAL ENSEMBLE I-IV (9280-9283)**

Offered: LB

Grade Level(s): 9, 10, 11, 12

Credit: 1

Prerequisite(s): Previous choir experience or a successful audition**Course Description:** Cavalier Singers meets before the regular school day during zero block and is designed for students who have extensive previous choir experience. The students will study a wide variety of vocal music containing 3-8 parts and will perform many times throughout the school year both at the school and in the community. All students in the class are required to participate in all after-school performances, rehearsals and choir events scheduled during the school year for the ensembles in which they perform.**MUSIC APPRECIATION (9222)**

Offered: LB

Grade Level(s): 9, 10, 11, 12

Credit: 1 Prerequisite(s): None

Course Description: This course introduces students to the multi-faceted world of music and how it relates to their everyday lives. Students will experience many examples of music originating from many places around the globe. Students will explore the history of Western music, which serves as the foundation of music experienced in today's culture. Students will also learn the basics of music theory from an instrumental construction and function.**FOREIGN LANGUAGES****FRENCH I (5110)**

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1

Prerequisite(s): It is recommended that students have a final grade of "C" or better in previous English course.**Course Description:** French I introduces students to the study of a modern foreign language. Students learn to understand basic spoken French, to speak basic French using acceptable pronunciation, to read basic French and to write basic French. Students also acquire a general knowledge of geography, history and culture of French-speaking people.**FRENCH II (5120)**

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1

Prerequisite(s): It is recommended that students have a final grade of "C" or better in French I.**Course Description:** French II continues the study of French at an intermediate level. A good foundation from French I is critical to the student being successful. There is greater emphasis on the use of French to communicate in the classroom.**FRENCH III (5130)**

Offered: JR, LB

Grade Level(s): 10, 11, 12

Credit: 1

Prerequisite(s): It is recommended that students have a final grade of "C" or better in French II.**Course Description:** French III is an advanced course in which students will continue to expand their knowledge of grammar and reading comprehension, as well as written and oral communication skills.**FRENCH IV (5140)**

Offered: JR, LB

Grade Level(s): 11, 12

Credit: 1

Prerequisite(s): It is recommended that students have a final grade of "C" or better in French III.**Course Description:** In French IV, students continue to develop oral-aural skills in various situational activities as well as comprehension and writing skills based on the different genres of French literature and cultural topics.

FRENCH LANGUAGE ADVANCED PLACEMENT (AP) (5170)

Offered: LB

Grade Level(s): 11, 12

Credit: 1^W

Prerequisite(s): It is recommended that students have a final grade of “C” or better in French IV.

Course Description: This course includes advanced French grammar, composition, and the continued development of speaking, writing, listening and reading skills. **Students are expected to take the Advanced Placement examination.**

SPANISH I (5510)

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1

Prerequisite(s): It is recommended that students have a final grade of “C” or better in previous English course.

Course Description: Spanish I introduces students to the study of a modern foreign language. Students learn to understand basic spoken Spanish, to speak basic Spanish using acceptable pronunciation, to read and write basic Spanish. Students also acquire a general knowledge of the geography, history, and culture of Hispanic people.

SPANISH II (5520)

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1

Prerequisite(s): It is recommended that students have a final grade of “C” or better in Spanish I.

Course Description: Spanish II continues the study of Spanish at an intermediate level. A good foundation from Spanish I is critical to the student being successful. There is greater emphasis on the use of Spanish to communicate in the classroom.

SPANISH III (5530)

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1

Prerequisite(s): It is recommended that students have a final grade of “C” or better in Spanish II.

Course Description: Spanish III is an advanced course in which students will continue to expand their knowledge of grammar and reading comprehension, as well as written and oral communication skills.

SPANISH IV - INTERMEDIATE SPANISH CONVERSATION I (5540, 5540D)

Offered: JR This course is dual enrolled through Dabney S. Lancaster Community College.

Offered: LB This course is dual enrolled through Virginia Western Community College.

Grade Level(s): 10, 11, 12

Credit: 1^W (3 college credits)

Prerequisite(s): **VWCC - Students must have a “B” average or better in two years of high school Spanish; Students electing to take this course for dual enrollment credit must apply to the appropriate community college and meet the required Virginia Placement Test (VPT) scores.**

Course Description: This course includes advanced Spanish grammar and composition and the continued development of speaking, writing, listening and reading skills.

SPANISH V - INTERMEDIATE SPANISH CONVERSATION II (5550, 5550D)

Offered: JR This course is dual enrolled through Dabney S. Lancaster Community College.

Offered: LB This course is dual enrolled through Virginia Western Community College.

Grade Level: 10, 11, 12

Credit: 1^W (3 college credits)

Prerequisite(s): Students must have a final grade of “C” or better in Spanish IV.

Course Description: This course continues the study of advanced Spanish grammar and composition as well as the development of speaking, writing, listening and reading skills.

HEALTH AND PHYSICAL EDUCATION

PHYSICAL EDUCATION/HEALTH 9 (7300, 7302)

**Note: LBHS band students should select course number 7302*

Offered: JR, LB Band Students

Grade Level: 9

Credit: 1 Prerequisite(s): None

Course Description: This class orients students to the rules, regulations, and skills required for various individual and team activities. Health will be taught on a rotating basis with physical education. In addition, all 9th grade PE students will meet the requirement to be trained in emergency first aid, cardiopulmonary resuscitation, and the use of automated external defibrillators, including hands-on practice of the skills necessary to perform cardiopulmonary resuscitation.

TEAM SPORTS/HEALTH 9 (7303)

**Note: LBHS band students should select course number 7302*

Offered: LB

Grade Level: 9

Credit: 1 Prerequisite(s): None

Course Description: This course will focus on a variety of team sports with emphasis on the development of the skills, knowledge and understanding necessary for competent participation at a recreational level. It will include activities for skill development, team participation, and team competition, as well as officiating, peer coaching and other aspects of sport management. Some of the activities to be included are: basketball, football, lacrosse, soccer, softball, team handball, volleyball and ultimate frisbee. The health portion of the class will focus on the 9th grade health and family life SOLs and will be taught on a rotating basis with physical education. In addition, all 9th grade PE students will meet the requirement to be trained in emergency first aid, cardiopulmonary resuscitation, and the use of automated external defibrillators, including hands-on practice of the skills necessary to perform cardiopulmonary resuscitation.

LIFETIME FITNESS AND WELLNESS/HEALTH 9 (7304)

**Note: LBHS band students should select course number 7302*

Offered: LB

Grade Level: 9

Credit: 1 Prerequisite(s): None

Course Description: This course emphasizes fitness for lifetime activities for individuals (team sports will not be incorporated during the unit). Students will be introduced to an array of cardiovascular fitness activities, strength training, muscle endurance training, and flexibility. Activities will include but not limited to proper weight-lifting techniques, trending fitness activities (body pump, step aerobics, cardio kickboxing), yoga, and cardiovascular fleeing games. The health portion of the class will focus on the 9th grade health and family life SOLs and will be taught on a rotating basis with physical education. In addition, all 9th grade PE students will meet the requirement to be trained in emergency first aid, cardiopulmonary resuscitation, and the use of automated external defibrillators, including hands-on practice of the skills necessary to perform cardiopulmonary resuscitation.

PHYSICAL EDUCATION/HEALTH 10 & DRIVER'S EDUCATION (7405)

Offered: JR, LB Band students

Grade Level: 10

Credit: 1

Prerequisite(s): Physical Education and Health 9

Course Description: This class orients students to the rules, regulations, and skills required for various individual and team activities. Health will be taught on a rotating basis with physical education. Driver and traffic safety education is a course designed to aid the student in obtaining a driver's license. This classroom course will include discussions of drugs, alcohol, road rage, and safe driving practices. A student must complete the classroom course before behind-the-wheel training can begin. There is no guarantee as to which semester a student will be enrolled in this course.

Note: Sophomores at LBHS are required to choose 7407, 7408, or 7409 for graduation if they are not in band. Band students should select course number 7405.

TEAM SPORTS/HEALTH & DRIVERS EDUCATION 10 (7407)

Offered: LB

Grade Level: 10

Credit: 1

Prerequisite(s): Physical Education and Health 9

Course Description: This course will focus on a variety of team sports with emphasis on the development of the skills, knowledge and understanding necessary for competent participation at a recreational level. It will include activities for skill development, team participation, and team competition, as well as officiating, peer coaching and other aspects of sport management. Some of the activities to be included are: basketball, football, lacrosse, soccer, softball, team handball, volleyball and ultimate frisbee. The health portion of the class will focus on the 10th grade health and family life SOLs and will be taught on a rotating basis with physical education. Driver and traffic safety education is a course designed to aid the student in obtaining a driver's license. This classroom course will include discussions of drugs, alcohol, road rage, and safe driving practices. A student must complete the classroom course before behind-the-wheel training can begin. There is no guarantee as to which semester a student will be enrolled in this course.

STRENGTH TRAINING & CONDITIONING/HEALTH & DRIVERS EDUCATION 10 (7408)

Offered: LB

Grade Level: 10

Credit: 1

Prerequisite(s): Physical Education and Health 9

Course Description: The focus of this course will be physical conditioning with an emphasis on strength training, physical conditioning and the skills and knowledge necessary to develop a personal fitness program. The health portion of the class will focus on the 10th grade health and family life SOLs and will be taught on a rotating basis with physical education. Driver and traffic safety education is a course designed to aid the student in obtaining a driver's license. This classroom course will include discussions of drugs, alcohol, road rage, and safe driving practices. A student must complete the classroom course before behind-the-wheel training can begin. There is no guarantee as to which semester a student will be enrolled in this course.

AEROBICS AND DANCE/HEALTH & DRIVERS EDUCATION 10 (7409)

Offered: LB

Grade Level: 10

Credit: 1

Prerequisite(s): Physical Education and Health 9

Course Description: This course will focus on group aerobics, dance and other rhythmic activities. Activities will include student-based choreography, expression through movement, flexibility training, popular social dances and other forms of dance. The health portion of the class will focus on the 10th grade health and family life SOLs and will be taught on a rotating basis with physical education. Driver and traffic safety education is a course designed to aid the student in obtaining a driver's license. This classroom course will include discussions of drugs, alcohol, road rage, and safe driving practices. A student must complete the classroom course before behind-the-wheel training can begin. There is no guarantee as to which semester a student will be enrolled in this course.

INDIVIDUAL AND GROUP LIFETIME ACTIVITIES 11 (7510)

Offered: JR, LB

Grade Level: 11

Credit: 1 Prerequisite(s): None

Course Description: Individual and Group Lifetime Activities 11 will emphasize fitness for life. Students will be evaluated on their individual progress and their academic knowledge of nutrition and anatomy. Activities will include but not be limited to personal fitness, aerobics, volleyball, racquetball, orienteering, badminton, flag football, conditioning activities, disc golf, golf, weight training, outdoor recreation activities, etc.

INDIVIDUAL AND GROUP LIFETIME ACTIVITIES 12 (7610)

Offered: JR, LB

Grade Level: 12

Credit: 1 Prerequisite(s): None

Course Description: Individual and Group Lifetime Activities 12 will emphasize fitness for life. Students will be evaluated on their individual progress and their academic knowledge of nutrition and anatomy. Activities will include but not be limited to personal fitness, aerobics, volleyball, racquetball, orienteering, badminton, flag football, conditioning activities, disc golf, golf, weight training, outdoor recreation activities, etc.

WEIGHT TRAINING & CONDITIONING: BEGINNER (7640)

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1 Prerequisite(s): None

Course Description: The focus of this course will be physical fitness with an emphasis on strength training, physical conditioning and the skills and knowledge necessary to develop a personal fitness program. A variety of activities will be incorporated to enhance both the health and skill related components of fitness for students of all skill and ability levels.

WEIGHT TRAINING & CONDITIONING: ADVANCED (7641)

Offered: JR, LB

Grade Level(s): 10, 11, 12

Credit: 1

Prerequisite(s): Completion of Weight Training and Conditioning: Beginner**Course Description:** The focus of this course will be advanced physical fitness with an emphasis on strength training, physical conditioning and the skills and knowledge necessary to develop a personal fitness program. A variety of activities will be incorporated to enhance both the health and skill related components of fitness for students of all skill and ability levels.**AEROBICS, DANCE, AND FLEXIBILITY TRAINING (7642)**

Offered: LB

Grade Level(s): 9, 10, 11, 12

Credit: 1 Prerequisite(s): None

Course Description: This course will focus on group aerobics, dance and other rhythmic activities. Activities will include student based choreography, expression through movement, flexibility training, the latest trends in group aerobics, popular social dances and other forms of dance. A variety of activities will be incorporated to enhance both the health and skill related components of fitness for students of all skill and ability levels.**SPORTS MEDICINE (7660)**

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1 Prerequisite(s): None

Course Description: Sports Medicine is the study of athletic-related injuries. This course will examine the domains of injury prevention, recognition, evaluation and rehabilitation. Students completing this course will be qualified to serve as student assistants in the Sports Medicine Department.**CAREER AND TECHNICAL EDUCATION (CTE) COURSE DESCRIPTIONS**

Career and Technical Education (CTE) courses give students the opportunity to apply academic knowledge and skills to real world issues. Regardless of post-secondary goals, all students can benefit from taking these courses. In addition, students that complete CTE programs have the opportunity to earn industry-recognized credentials that will give them a competitive advantage in their future endeavors.

The Virginia Department of Education requires school divisions to test all CTE completers with an approved external examination at the end of their CTE program. Any course that requires such testing has been noted in the course description. For more information about becoming a CTE completer or about the testing provided, please contact your school counselor.

AGRICULTURAL EDUCATION

Student Organization: Future Farmers of America (FFA)

INTRODUCTION TO AGRICULTURE AND SHOP TECHNOLOGY (8073)

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1 Prerequisite(s): None

Course Description: This course introduces students to all aspects of the agriculture industry. Students will learn about career opportunities through hands-on experience in the fields of animal sciences, plant sciences, agricultural mechanics, and agriculture business. So whether you are interested in being a veterinarian, wildlife biologist, forester, welder, builder, or a mechanic, this is the course for you. In this course you will also have the opportunity to be a member of the FFA where you will have the opportunity to learn valuable leadership skills and be able to take part in specialized career development events across the state to sharpen your specific field of interest. This serves as a good introductory course to programs at BTEC.**AGRICULTURAL SYSTEMS (8008)**

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1

Prerequisite(s): Completion of Introduction to Agriculture and Shop Technology**Course Description:** This course is an introductory course that will allow students to learn about plant and animal systems associated with the agriculture industry. Through classroom and shop settings, students will gain knowledge of the growth and production of agricultural plants and animals. Students will also gain an understanding of the mechanics associated with these agricultural industries. Students will learn important leadership skills through membership in the FFA.

AGRICULTURE PRODUCTION (8010)

Offered: JR, LB (Note: JR offered 19-20; 21-22)

Grade Level(s): 10, 11, 12

Credit: 1

Prerequisite(s): Completion of Introduction to Agriculture and Shop Technology

Course Description: This course emphasizes the local enterprises of beef and dairy cattle as well as food production. Students will continue to experience activities relating to plant, animal and environmental science as well as agriculture mechanics. Students will understand principles of leadership through opportunities within FFA along with supervised agricultural experience opportunities. This course *may* require a certification or credentialing test.

AGRICULTURE MANAGEMENT (8012)

Offered: JR, LB (Note: JR offered 18-19; 20-21)

Grade Level(s): 10, 11, 12

Credit: 1

Prerequisite(s): Completion of Introduction to Agriculture and Shop Technology

Course Description: Through partnerships with local agriculture industry representatives, students will gain a better understanding of how to successfully manage an agricultural enterprise. Emphasis will be placed on agriculture mechanics, soil and water management, supervised farming programs and leadership training. Shop skills are geared to more advanced metal and woodworking projects along with electrical wiring, outbuilding construction and farm vehicle care and maintenance. This course *may* require a certification or credentialing test.

OPERATING THE FARM BUSINESS (8014)

Offered: JR, LB

Grade Level(s): 10, 11, 12

Credit: 1

Prerequisite(s): Completion of Introduction to Agriculture and Shop Technology

Course Description: Students focus on farming, farm management, and occupational experience as they receive instruction in adjusting, operating, and maintaining farm machinery and equipment and in planning and constructing farm buildings and facilities. Continued emphasis is placed on leadership training through involvement in FFA activities. This course *may* require a certification or credentialing test.

SMALL ENGINE REPAIR TECHNOLOGY I (8082)

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1 Prerequisite(s): None

Course Description: Small Engine Repair Technology is an intensive study of the operation, maintenance, and repair of small gasoline and diesel engines. Learn to repair and maintain your mowers and discover how they operate.

SMALL ENGINE REPAIR TECHNOLOGY II (8018)

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1

Prerequisite(s): Completion of Small Engine Repair Technology I

Course Description: In this course you will have the opportunity to learn more about small gas engines along with full lawn mower repair and small diesel engine operation. Students will receive instruction in the areas of basic engine principles, power trains, hydraulics, and electrical systems. This course *may* require a certification or credentialing test.

BUSINESS and INFORMATION TECHNOLOGY
--

Student Organization: Future Business Leaders of America (FBLA)

ACCOUNTING (6320)

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1 Prerequisite(s): None

Course Description: This course emphasizes accounting principles, and the relationships and processes of manual and computerized financial systems. Instruction integrates computers and electronic calculators. Students interested in studying a business field at the post-secondary level are strongly encouraged to take Accounting. This course *may* require a certification or credentialing test.

BE YOUR OWN BOSS (9093)

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1 Prerequisite(s): None

Course Description: Students study basic management concepts and leadership styles as they explore business ownership, planning, operation, marketing, finance, human relations, and communication.

CAREER OPPORTUNITIES (9071)

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1 Prerequisite(s): None

Course Description: This course allows students to explore various career choices and learn basic employability skills. Students will investigate a multitude of careers through research, seminars, and guest speakers. A student's Academic Career Plan (ACP) will be revisited and updated.

COMPUTER APPLICATIONS (6611)

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1 Prerequisite(s): None

Course Description: Computer Applications goes beyond developing/reviewing correct keyboarding techniques by allowing students to gain a comprehensive knowledge of Microsoft Word while also introducing a basic use of spreadsheets, database and graphic applications. This course *may* require a certification or credentialing test.

ECONOMICS & PERSONAL FINANCE (6120)

Offered: JR, LB

Grade Level(s): 10, 11, 12

Credit: 1 Prerequisite(s): None

Course Description: This course is designed to familiarize students with basic consumer skills that will help them survive "life after graduation" whether in a post-secondary education setting or the workforce. This course *may* require a certification or credentialing test. **This is a required course for graduation.**

MEDICAL TERMINOLOGY AND APPLICATIONS (6730)

Offered: LB

Grade Level(s): 11, 12

Credit: 1 Prerequisite(s): None

Course Description: Students wishing to gain employment in the medical field may take this course to learn how to use medical terminology and procedures useful in developing medical documents and functioning effectively in a medical office environment. This course *may* require a certification or credentialing test.

MICROSOFT OFFICE (6612)

Offered: JR, LB

Grade Level(s): 10, 11, 12

Credit: 1 Prerequisite(s): None

Course Description: This course is designed to introduce students to computer technology and practical applications using Microsoft Office 2013 (Word, Excel, Access and PowerPoint). This course *may* require a certification or credentialing test.

MULTIMEDIA WEB DESIGN (6630)

(Formerly Desktop Publishing)

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1 Prerequisite(s): None

Course Description: Students develop proficiency in designing and creating desktop-published projects, multimedia presentations/projects, and websites, using industry-standard application software. Students apply principles of layout and design in completing projects. Students will produce a variety of desktop-published, multimedia, and website projects in the course. This course *may* require a certification or credentialing test.

MARKETING EDUCATION

Student Organization: DECA

MARKETING (8120)

Offered: LB

Grade Level(s): 11, 12

Credit: 1 Prerequisite(s): None

Course Description: This course allows a student to learn marketing concepts. Students will research career opportunities, identify traits appropriate for the workforce and develop communication skills. Students will become knowledgeable in economics, selling techniques, distribution, risk management and Internet marketing. This course *may* require a certification or credentialing test.

SPORTS, ENTERTAINMENT, AND RECREATION MARKETING (8175)

Offered: LB

Grade Level(s): 9, 10, 11, 12

Credit: 1 Prerequisite(s): None

Course Description: This course is designed for students who have an interest in sports and recreation as well as entertainment. Students will study marketing concepts as they relate to the sports and entertainment industries. This course *may* require a certification or credentialing test.

SPORTS, ENTERTAINMENT AND RECREATION MARKETING ADVANCED (8177)

Offered: LB

Grade Level(s): 10, 11, 12

Credit: 1

Prerequisite(s): Completion of Sports, Entertainment and Recreation Marketing

Course Description: Students will build on prior knowledge of sports, entertainment, and recreation marketing and explore in-depth sports and entertainment industries. This course *may* require a certification or credentialing test.

FAMILY AND CONSUMER SCIENCES

Student Organization: Family, Career, and Community Leaders of America (FCCLA)

EARLY CHILDHOOD DEVELOPMENT (8232)

Offered: JR, LB (Note: JR – Offered 18-19; 20-21)

Grade Level(s): 9, 10, 11, 12

Credit: 1 Prerequisite(s): None

Course Description: Students will study principles of child growth and behavior, positive behavior guidance, creating healthy and safe environments, professionalism, and basic childcare. Students will be engaged in project-based activities. This course *may* require a certification test.

INDIVIDUAL DEVELOPMENT AND RELATIONSHIPS (8210)

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1 Prerequisite(s): None

Course Description: Respect, responsibility, and relationships—it has been proven that young people who feel good about themselves and learn various coping skills are more motivated to succeed. This course teaches young people how to live with one another, how to be supportive and nurturing, how to show respect for each other, and how to have dignity for one's self. This course *may* require a certification or credentialing test.

INTRODUCTION TO CULINARY ARTS (8250)

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1 Prerequisite(s): None

Course Description: This course includes the basic food preparation skills needed to successfully prepare meals. Students will also identify the individual careers within the food service industry. Limited sections of this course will be provided. This course *may* require a certification or credentialing test.

INTRODUCTION TO FASHION DESIGN AND MARKETING (8248)

Offered: LB (Note: JR – Offered 19-20; 21-22)

Grade Level(s): 9, 10, 11, 12

Credit: 1 Prerequisite(s): None

Course Description: The design and merchandising competencies for this course focus on identifying and exploring the individual careers within the apparel, accessory, and textile design, manufacturing, and merchandising industry. The course will involve a variety of hands-on projects; students are responsible for project supply lists for these projects. This course *may* require a certification or credentialing test.

INTRODUCTION TO INTERIOR DESIGN (8255)

Offered: LB

Grade Level(s): 9, 10, 11, 12

Credit: 1 Prerequisite(s): None

Course Description: In Interior Design, students will explore housing options, space utilization, development of artistic skills, environmental components, lighting, interior finishes, accessories, energy conservation, furnishings, equipment selection, and careers in interior design. The course will involve a variety of hands-on projects; students are responsible for project supply lists for these projects. This course *may* require a certification or credentialing test.

LEADERSHIP DEVELOPMENT (9097)

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1 Prerequisite(s): None

Course Description: Students will develop life skills necessary to thrive in an ever-changing society. Through the study of both current and historical role models, students will learn how to apply key character traits to their personal and academic lives. Using the BCPS Academic Career Plan (ACP), students will continue to plan a course of study that best prepares them for their career interest. This course *may* require a certification or credentialing test.

NUTRITION AND WELLNESS (8229)

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1 Prerequisite(s): None

Course Description: This course is not just for the athlete, but anyone who wants to better understand the components of fitness and nutrition and their effects on the body. Information covers self-assessment, nutrition basics, current food and fitness issues, and a chance to create nutritional meals and snacks. This course *may* require a certification or credentialing test.

WORK-BASED LEARNING**WORK-BASED LEARNING I (8201)****WORK-BASED LEARNING II (8202)**

Offered: JR, LB

Grade Level(s): 11, 12

Credit: 1 (Full Year Course)

Prerequisite(s): Students must be enrolled in a CTE course during the school year, secure employment before the first day of school, and maintain employment throughout the school year.

Course Description: This course is a structured method of instruction combining CTE classroom-based education with on-the-job training experiences to help students prepare for and/or explore their occupational objectives. Students enhance their knowledge, skills, and attitudes by participating in supervised experiences that are not easily replicated in an educational setting. Formal and informal evaluations of student progress, including feedback from employers, are completed to assist learners in improving their work performance and providing an additional credit toward graduation. **Credit for work-based learning during a 36-week school year will be based upon successful completion of the course requirements and continuous employment throughout the school year, averaging between 11 and 15 hours a week.** Any student who has not maintained employment throughout first semester will receive a WF and be placed in a new course for second semester.

BOTETOURT COUNTY ADVANCED TRAINING COURSES AND PROGRAMS

AEROSPACE TECHNOLOGY (8487)

Offered: BTEC

Grade Level(s): 9, 10, 11, 12

Credit: 2 Prerequisite(s): None

Course Description: This course offers students an introduction to flight, space and supporting technologies through a hands-on, project-based instruction. Students explore the aviation and space industries through working with aerodynamics and aircraft components. Topics include, but are not limited to, maintenance and safety issues, flight conditions, flight operations and concepts of rocketry and space.

AUTO BODY TECHNOLOGY

Offered: BTEC

Grade Level(s): 9, 10, 11, 12

Credits: Auto Body I – 2 credits
Auto Body II – 4 credits

Prerequisite(s): Students must earn a “C” or better in Auto Body I and have completed the safety certification to enroll in Auto Body II.

Program Course Descriptions:

Auto Body Technology I (8676) Auto Body Technology is a two-year ASE certified program that introduces entry level and advanced skills to students interested in entering this highly technical field. Students will gain practical work experience in collision repair while completing the I-Car Pro Level One intro series for non-structural repair.

Auto Body Technology II (8677) Students learn basic and advanced skills of automotive refinishing, while completing the I-Car refinishing curriculum. Student will take the ASE certification test for nonstructural repair and refinishing upon completion of the second year.

AUTO SERVICE TECHNOLOGY

Offered: BTEC These courses are dual enrolled through Virginia Western Community College.

Grade Level(s): 10, 11, 12

Credits: Auto Service I – 2^w credits (4 college credits)
Auto Service II – 4^w credits (13 college credits)

Prerequisite(s): Students must earn a “C” or better in Auto Service I and have completed the safety certification to enroll in Auto Service II. Students electing to take these courses for dual enrollment credit must apply to Virginia Western Community College and meet the required Virginia Placement Test (VPT) score.

Program Course Descriptions:

Auto Service Technology I (8506, 8506D) Auto Service Technology is an ASE certified two-year program that teaches basic skills needed to diagnose and repair today’s automobiles. In Auto Service I, students will complete lessons in lab safety and equipment use/safety tests (SP-2), tool identification, vehicle service, maintenance, tire and wheel service, electrical systems, engine theory and repair, engine performance and brake systems.

Auto Service Technology II (8507, 8507D) In Auto Service II, students will continue lessons in safety (SP-2), brake systems, electrical systems, and engine repair and performance. Students will also study vehicle emissions systems, steering and suspension systems and alignment, and Virginia state inspection requirements. Students will complete ASE certification testing in multiple areas. In addition, after successful completion of year two, dual enrolled students will earn the Automotive Analysis and Repair Career Studies Certificate.

BUILDING TRADES

Offered: BTEC

Grade Level(s): 9, 10, 11, 12

Credits: Building Trades I – 2 credits
Building Trades II – 4 credits

Prerequisite(s): Students must earn a “C” or better in Building Trades I and have completed the safety certification to enroll in Building Trades II.

Program Course Descriptions:

Building Trades I (8515) Students learn skills in the four core areas of residential construction: masonry, carpentry, electricity, and plumbing. Students emphasize safety by preparing to earn the OSHA 10 card as they build or repair entire residential structures, using a variety of materials and tools.

Building Trades II (8516) Students learn advanced skills in masonry, carpentry, electricity, and plumbing. The class prepares students to synthesize these valuable skills to build or repair complete residential structures, using a variety of materials and tools. At the conclusion of the second year of this program, the student will be expected to take a certification or credentialing test.

COMPUTER SYSTEMS TECHNOLOGY (CST)

Offered: BTEC

Grade Level(s): 9, 10, 11, 12

Credits: CST I - 2 credits

CST II - 2 credits

CST III - 2 credits

Prerequisite(s): Students must earn a "C" or better in Computer Systems I in order to enroll in Computer Systems II and III.

Program Course Descriptions:

Computer Systems Technology I (8622) Students gain practical experience in assembling a computer system, installing an operating system, troubleshooting computers and peripherals, and using system tools and diagnostic software. Students also have the opportunity to develop skills in computer networking and resource sharing.

Computer Systems Technology II (8623) Students are provided training in procedures for optimizing and troubleshooting concepts for computer systems and subsystems. Students explore wireless technologies (e.g., Bluetooth, Wi-Fi) and create and configure a network. Upon successful completion of the course, students will have the opportunity to earn PC Pro Certification through Test Out.

Computer Systems Technology III - Cybersecurity (8624) Students explore foundational cybersecurity principles, security architecture, risk management, attacks, incidents and emerging technologies. Upon successful completion of the course, students will have the opportunity to earn the Security Pro Certification through Test Out.

COSMETOLOGY

Offered: BTEC

Grade Level(s): 11, 12

Credits: Cosmetology I and II - 4 credits

Cosmetology III - 4 credits

Prerequisite(s): Students must earn a "C" or better in Cosmetology I in order to enroll in Cosmetology II. There is a School Board approved fee associated with this course. Refer to Policy JN-BR3.

Program Course Descriptions:

Cosmetology I and II (8527, 8528) Students are introduced to the principles, anatomy, physiology and chemistry of hair, skin, and nail care. Students also learn proper work habits and business skills necessary to be successful in the cosmetology field. Students practice skills to earn the competencies that are required by the state.

Cosmetology III (8529) Students refine practical skills to prepare for the State Board test. The written and practical licensure test is taken as a senior in the spring semester.

CRIMINAL JUSTICE

Offered: BTEC These courses are dual enrolled through Dabney S. Lancaster Community College.

Grade Level(s): 10, 11, 12

Credits: Criminal Justice I – 2^W credits (3 college credits)

Criminal Justice II – 2^W credits (3 college credits)

Prerequisite(s): Students must earn a "C" or better in Criminal Justice I in order to enroll in Criminal Justice II. Students electing to take these courses for dual enrollment credit must apply to Dabney S. Lancaster Community College and meet the required Virginia Placement Test (VPT) scores.

Program Course Descriptions:

Criminal Justice I (8702, 8702D) Students are introduced to principles, techniques, and practices for pursuing careers within the criminal justice services system. Topics to be introduced include Rule of Law, policing crime scene investigation, the court system, juvenile justice and careers in criminal justice.

Criminal Justice II (8703, 8703D) Students will be provided a more in-depth look at the criminal justice system, with emphasis on communication skills, arrest procedures, and collection of physical evidence. Students will get a firsthand look at the courts through observation of actual court proceedings in local courts. They will also participate in field experience outings to the Botetourt County Sheriff's Office and the local probation and parole office.

ENGINEERING AND MECHATRONICS

(Formerly STEM-H Engineering/Mechatronics I and II)

Offered: BTEC These courses are dual enrolled through Virginia Western Community College.

Grade Level(s): 9, 10, 11, 12

Credits: Engineering and Mechatronics I - 2 credits (1^W credit) (2 college credits)

Engineering and Mechatronics II - 2 credits (0 college credits)

Prerequisite(s): Students electing to take these courses for dual enrollment credit must apply to Virginia Western Community College and meet the required Virginia Placement Test (VPT) scores.

Program Course Descriptions: While these courses can be taken as a stand-alone elective, they also provide a foundation for students pursuing engineering or mechatronics degrees and certifications during their junior and/or senior year.

Engineering and Mechatronics I (ENGI) Students examine technology and engineering fundamentals in relation to solving real-world problems. Students investigate engineering history and they examine engineering specialty fields and related careers. Students apply the engineering design process in course projects. Students practice engineering fundamentals using mathematical and scientific concepts and participate in hands-on projects as they communicate information through team-based presentations, proposals and technical reports. Students compete in a robotics competition at Virginia Western Community College.

Engineering and Mechatronics II (ENGII) Level two of the engineering and mechatronics programs is designed for creative students with strong math skills. This program applies principles of science and mathematics to solve real world problems. The intent of this program is to provide students a sense of what the engineering profession encompasses while exposing them to engineering and math concepts to better prepare them for success in engineering programs at the undergraduate level.

HEALTH SCIENCE

Offered: GETC These courses are dual enrolled through Virginia Western Community College.

Grade Level(s): 9, 10

Credits: Health Science I - 2 credits (1^W credit) (2 college credits)

Health Science II - 4^W credits (14 college credits)

Prerequisite(s): Students electing to take courses for dual enrollment credit must apply to Virginia Western Community College and meet the required Virginia Placement Test (VPT) scores.

Program Course Descriptions: The BCPS health science program integrates classroom and laboratory experiences that will prepare students for the rapidly changing health science field. This rigorous pathway supports students who wish to attend the Virginia Western Regional Academy for Health Science and obtain a two-year Associate's Degree or four-year Bachelor's Degree.

Health Science I (HSI) Students will study a variety of biology concepts at an advanced level. In addition, students will establish foundational knowledge of the research process and data collection. Students will also explore a variety of real world careers in health related fields, skills necessary to achieve their academic goals and services offered at the community college as a dual enrolled student.

Health Science II (HSII) Students will continue their study of biology in College Biology I and II. College Biology I offers an introduction to the basic processes of life and science with emphasis on cellular structures and functions and mechanisms of inheritance as well as other processes common to most organisms including humans. College Biology II explores fundamental characteristics of living matter including the diversity of living organisms, their structure, function, and evolution. In an introductory sociology course students will explore cultures, social structure, socialization, deviance, social stratification, and social institutions. A medical terminology course provides an understanding of medical abbreviations and terms.

INFORMATION SYSTEMS TECHNOLOGY (IST)

Offered: BTEC

Grade Level(s): 9, 10, 11, 12

Credits: IST I - 2 credits (1^W credit) (2 college credits) This course is dual enrolled through Virginia Western Community College.

IST II - 2 credits

IST III - 2 credits

Prerequisite(s): Students must earn a "C" or better in year Information Systems Technology I in order to enroll in Information Systems Technology II and III. Students electing to take courses for dual enrollment credit must apply to Virginia Western Community College and meet the required Virginia Placement Test (VPT) scores.

Program Course Descriptions:

Information Systems Technology I (ISTI) - Students explore careers in the information technology field (optional college credit available), develop multimedia skills using Photoshop and Blender and learn webpage design using HTML and CSS.

Information Systems Technology II (ISTII) - Students use GameMaker Studio and Unity to begin their skills in game design development. Additionally this level allows students to learn Python to develop basic programming skills. Students will have an opportunity to earn an industry-recognized certification valuable to the field of information technology.

Information Systems Technology III (ISTIII) - Information Systems Technology III allows students to further develop their game design skills in Unity and GameMaker Studio and advance their programming and web design skills using JavaScript. Students will have an opportunity to earn an industry-recognized certification valuable to the field of information technology.

LANDSCAPING (8039)

Offered: BTEC

Grade Level(s): 9, 10, 11, 12

Credit: 2 Prerequisite(s): None

Course Description: Landscaping is a program where students develop the necessary knowledge, skills, habits, and attitudes for entry-level employment and advancement in areas such as landscape design, landscape construction, and landscape maintenance. They receive instruction in sketching and drawing (both by hand and through the use of computer software), analyzing a landscape site, designing for function and aesthetics, identifying and selecting landscape plants, purchasing and installing plants, and maintaining the landscape by watering, fertilizing, mulching, pruning, and controlling pests. Landscape projects are approached from an entrepreneurial aspect. Applications of technology in the design process and management of a landscape business are utilized. The course emphasizes leadership development through participation in the FFA. This course covers the competencies for both levels of landscaping and therefore allows students to be a CTE completer.

MECHATRONICS

Offered: BTEC These courses are dual enrolled through Virginia Western Community College.

Grade Level(s): 11,12

Credits: Mechatronics I – 4^W credits (12 college credits)

Mechatronics II – 4^W credits (9 college credits)

Prerequisite(s): Students electing to take courses for dual enrollment credit must apply to Virginia Western Community College and meet the required Virginia Placement Test (VPT) scores.

Program Course Descriptions:

Mechatronics I (8554) Students will learn about mechatronic systems in this series of courses. These systems are comprised of mechanical, electrical, and software systems. Mechatronics systems form the foundation of robotics, automation, and advanced manufacturing (such as 3D printing). The rapidly evolving area of mechatronics offers a variety of career options across many technological fields. Courses will include Technical Math I, Mechanisms, Materials and Processes, CAD; Robotics and Computer Methods in Engineering and Technology.

Mechatronics II (8555) Students will continue their mechatronics competencies and will complete the program with the opportunity to earn an industry-recognized Siemens's Level One certification. Courses will include Introduction to Mechatronics, Technical Math II, Applied Technology, Applied Hydraulics and Pneumatics, DC and AC Circuits and Automated Manufacturing Systems.

NURSE AIDE

Offered: BTEC These courses are dual enrolled through Dabney S. Lancaster Community College.

Grade Level(s): 11, 12

Credits: Nurse Aide I – 2^W credits (6 college credits)

Nurse Aide II – 4^W credits (6 college credits)

Prerequisite(s): Students must earn a "B" or better in Nurse Aide I in order to enroll in Nurse Aide II. Students electing to take these courses for dual enrollment credit must apply to Dabney S. Lancaster Community College and meet the required Virginia Placement Test (VPT) scores. There is a School Board approved fee associated with this course. Refer to Policy JN-BR3.

Program Course Descriptions:

Nurse Aide I (8360, 8360D) The Nurse Aide I program explores a variety of health careers. Students become certified in CPR. Emphasis is on theory in anatomy and physiology, growth and development, infection control, patient communication, healthcare delivery systems, and medical terminology in preparation for Nurse Aide II.

Nurse Aide II (8362, 8362D) In Nurse Aide II students will gain clinical experience at different sites in the area. Upon successful completion of the second year, students will take the State Board Examination to become a Certified Nursing Assistant (CNA) and/or move into a post-secondary program.

PRINCIPLES OF ELECTRONICS – ANALOG AND DIGITAL (8412)

Offered: BTEC

Grade Level(s): 9, 10, 11,12

Credit: 1

Prerequisite(s): Completion of Algebra I

Course Description: Electronic devices are everywhere in modern life and business, and, as a result, opportunities abound for any who should master the knowledge and skills required to design, alter, repair, and construct them. This course allows students the opportunity to explore principles of electricity, apply knowledge in mathematics and science, and conduct experiments with electronics. Students solve problems using simple electrical devices and circuits and build electronic projects using DC and AC devices and circuits. Students work with electronics devices, instruments, and circuits, building and designing devices to apply theories and laws with electronic components. They also study integrated circuits used in computers, amplifiers, television, and other equipment.

VETERINARY TECHNOLOGY (8084)

Offered: BTEC

Grade Level(s): 9, 10, 11, 12

Credit: 2 Prerequisite(s): None

Course Description: Students learn how to care for and manage small animals, focus on animal health, nutrition, management, reproduction, and evaluation. Course content also includes instruction in the tools, equipment, and facilities for small animal care. This course covers the competencies for both levels of Veterinary Technology and therefore allows students to be a CTE completer.

VIRGINIA TEACHERS FOR TOMORROW (9062, 9062D)

Offered: Local Elementary School This course is dual enrolled through Shenandoah University.

Grade Level(s): 11, 12

Credit: 1^W (3 college credits)

Prerequisite(s): GPA 2.7 and submission of an essay

Course Description: This course introduces high school juniors and seniors to a career in teaching and education through the Career Connections program. The primary elements of the curriculum components are the learner, the school, and the teacher and teaching. The components are intentionally broad in scope and provide a great deal of flexibility based on the career interest of a student. In addition to the fundamental curriculum components, all students are required to participate in an internship outside the classroom. The internship may involve pre-school through grade 8.

VIRGINIA WESTERN REGIONAL ACADEMY FOR APPLIED INTERDISCIPLINARY SCIENCE I AND II (9600)

Offered: Virginia Western Community College Campus

Grade Level(s): 11,12

Prerequisite(s): In the spring prior to their junior or senior year, students must apply to Virginia Western Community College as well as the Virginia Western Regional Academy and meet the required Virginia Placement Test (VPT) scores.

Program Description: This program will empower students with the knowledge, principles and investigative skills to contribute to scientific discovery. Students will gain confidence and become independent thinkers as they employ the scientific method in the fields of general biology, biotechnology, and environmental science. Students will earn a Career Studies Certificate in Applied Interdisciplinary Science while learning to gather, manage and interpret scientific data through coursework and field research conducted in the Roanoke River.

[Please see the Virginia Western Regional Academy website for more information.](#)

VIRGINIA WESTERN REGIONAL ACADEMY FOR ENGINEERING I AND II (9600)

Offered: Virginia Western Community College Campus

Grade Level(s): 11,12

Prerequisite(s): In the spring prior to their junior or senior year, students must apply to Virginia Western Community College as well as the Virginia Western Regional Academy and meet the required Virginia Placement Test (VPT) scores.

Program Description: The Engineering program is designed for creative students who want to explore engineering as a potential major. The intent of this program is to provide students a sense of what the engineering profession encompasses while exposing them to engineering concepts to better prepare them for success in engineering at the undergraduate level. Students should demonstrate strong math skills for this program. [Please see the Virginia Western Regional Academy website for more information.](#)

VIRGINIA WESTERN REGIONAL ACADEMY FOR HEALTH SCIENCE I AND II (9600)

Offered: Virginia Western Community College Campus

Grade Level(s): 11,12

Prerequisite(s): In the spring prior to their junior or senior year, students must apply to Virginia Western Community College as well as the Virginia Western Regional Academy and meet the required Virginia Placement Test (VPT) scores.

Program Description: This curriculum is designed for students who plan to transfer to a four-year institution to complete a baccalaureate degree in an allied health program such as nursing, health education or dietetics/nutrition. Students should demonstrate strong science and math skills in their high school program. Students must have successfully completed high school biology and college biology for dual enrollment credit prior to enrollment. [Please see the Virginia Western Regional Academy website for more information.](#)

WELDING

Offered: BTEC These courses are dual enrolled through Dabney S. Lancaster Community College.

Grade Level(s): 9, 10, 11, 12

Credits: Welding I - 2^W credits (4 college credits)

Welding II - 4^W credits (7 college credits)

Welding III - 4 credits (0 college credits)

Prerequisite(s): Students must earn a "C" or better in the previous course to enroll in the next level. Students must have also completed the safety certification to enroll in Welding II and III. Students electing to take these courses for dual enrollment credit must apply to Dabney S. Lancaster Community College and meet the required Virginia Placement Test (VPT) scores. There is a School Board approved fee associated with this course. Refer to Policy JN-BR3.

Program Course Descriptions:

Welding I (8672, 8672D) Student's gain practical experience and entry level knowledge of shielded metal arc welding, oxy fuel cutting plasma arc cutting, gas metal arc welding, flux cored arc welding, general shop safety and a OSHA 10 credential.

Welding II (8673, 8673D) Students are provided SP2 training review of safety, and work readiness skills, students act upon prior knowledge to hone previously learned welding skills and explore new and advanced welding and cutting techniques along with certifications in gas metal arc welding and flux cored arc welding. Students also experience entry level fabrication.

Welding III (8674) Students increase fabrication knowledge as well as refine previously learned techniques and welding processes. Students gain experience working with industrial equipment such as the CNC plasma cutter, press brake, and shear. Additional welding certification opportunities are available. There is a School Board approved fee associated with this course. Refer to Policy JN-BR3.

RESOURCE ASSISTANCE/STUDY SKILLS (135)

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 0

Prerequisite(s): Student must be eligible for special education services and the student's IEP must specify enrollment in the course.**Course Description:** Students will receive directed assistance (and/or additional time and guidance) in the completion of content-area assignments and requirements. Students must demonstrate appropriate effort and progress as they study, research, review, read, write and calculate on a daily basis in the resource room.**BASIC MATH I-IV (3200-3203)**

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1 (Elective credit)

Prerequisite(s): Student must be eligible for special education services and the student's IEP must specify enrollment in the course.**Course Description:** This course is designed for students to receive direct instruction at their current performance level and to assist in improving math skills. The course content includes the goals and objectives designated in the student's IEP. This class is for Applied Studies diploma candidates only. This class does not meet the requirements for Modified Standard, Standard or Advanced Studies Diploma.**BASIC ENGLISH I-IV (1005-1008)**

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1 (Elective credit)

Prerequisite(s): Student must be eligible for special education services and the student's IEP must specify enrollment in the course.**Course Description:** This course is designed for students to receive direct instruction at their current performance level and to assist in improving skills in reading, writing, spelling, grammar, language and vocabulary. The course content includes the goals and objectives designated in the student's IEP. This class is for Applied Studies diploma candidates only. This class does not meet the requirements for Modified Standard, Standard or Advanced Studies Diploma.**LINGUISTICS I-VIII (1015-1018, 1001-1004)**

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1 (Elective credit)

Prerequisite(s): Reading and writing performance significantly below grade level placement as indicated by formal assessments.**Course Description:** This course is designed to provide students with intensive and coordinated reading instruction at their current performance level and to assist in improving skills in writing, spelling, grammar, language and vocabulary. The course content also includes the goals and objectives designated in the student's IEP.**INDEPENDENT LIVING I-IV (7894-7897)**

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1

Prerequisite(s): Student must be eligible for special education services and the student's IEP must specify enrollment in the course.**Course Description:** This course is designed for special education students and focuses on personal management, community living and functional academic skills. Class activities include lecture-demonstration, hands-on experiences and individual projects. The course content includes the goals and objectives designated in the student's IEP. This class is for Applied Studies diploma candidates only.**COMMUNITY-BASED WORK PROGRAM I-II (7888-7890, 7902)**

Offered: JR, LB

Grade Level(s): 11, 12

Credits: 2

Prerequisite(s): Student must be eligible for special education services and the student's IEP must specify enrollment in the course.**Course Description:** Students will work with area agencies in an appropriate school-to-work transition plan. This is a pass/fail course.**VOCATIONAL SKILLS I-IV (7898-7901)**

Offered: JR, LB

Grade Level(s): 9, 10, 11, 12

Credit: 1

Prerequisite(s): Students must be eligible for special education services and the student's IEP must specify enrollment in the course.**Course Description:** This course is designed to provide students with direct instruction in the area of vocational/work-related skills. This course will provide students with classroom experiences, which are specifically designed to assist students in becoming prepared for the world of work prior to or in conjunction with enrollment in the **Community-Based Work Program** course. Topics of study may include interpersonal job skills, productive work habits, job search skills, and skills specifically related to a potential job placement. The course content includes the goals and objectives designated in the student's IEP. This class is for Applied Studies diploma candidates only.
